BIG STEAMER SINKS IN THE PACIFIC

LINER ASIA GOES TO BOTTOM

Passengers Saved When Pacific Mail Steamship Sinks Off South China

Wireless Flashes Message of Distress After Vessel Strikes Finger Rock

TOKIO, April 24.—The Pacific Mail steamship Asia from Hong Kong for San Francisco has sunk off Finger Rock, South China. The passengers are reported rescued and the mail saved.

The Asia struck Sunday morning while feeling her way cautiously through a thick fog in the direction of Shanghai. Her wireless signals of distress were picked up by the steamer Amerika of the Toyo Kisen company, which was en route from Shanghai for Hong Kong. The latter ship replied: "We are coming to your assistance."

No further message was received by the Amerika, which pushed hard in the direction of the Asia. The Amerika arrived off Finger Rock at 3 o'clock yesterday, but owing to the fog which continued heavy, was unable to discover the whereabouts of the distressed steamer.

PASSENGERS RESCUED. The Amerika laid to until the weather cleared when she found that the Chinese vessel Shang Siu of the Taku Steamship Company, had gone to the aid of the Asia and rescued her passengers.

The latest report received by the agent of the Pacific Mail steamship line at Yokohama says that the Asia was sunk, but that it is believed that the passengers with the mails were saved.

The Asia sailed Friday from Hong Kong and was due in San Francisco May 18. She operated regularly between these ports and was commanded by H. Gaukroger. The steamer was built in 1883 and registered a little less than 5000 tons gross.

Finger Rock is a remarkable projection from the Hean Chu Island, the southernmost of Taichau group of islands, which lie about 200 miles south of Shanghai. The ship was on her way to Shanghai, which was her regular port of call.

SAN FRANCISCO, April 24.—The Asia was one of the smallest of the steamers operated between this port and the Orient by the Pacific Mail Company. Her gross tonnage was 4680 and her length 440 feet. She was a steel screw steamer built by Harland & Wolff at Belfast, Ireland, in 1883. For the past five years she has been in command of Captain H. Gaukroger.

SUICIDE IS PROMPTED BY GRIEF

Edgar W. Hawkins Kills Himself While Despondent Over Friend's Fate

Body Is Found in a Pool of Blood; Bullet in Head Tells Story

SAN FRANCISCO, April 24.—Grieving over the illness of a friend and feeling himself powerless to prevent his passing, Edgar W. Hawkins, one of the best known real estate brokers of this city, in a sudden fit of despondency, determined to precede his comrade to the grave and committed suicide some time last night. His body was found in a pool of blood in the lavatory adjoining his office at 370 Bush street at 6:30 this morning by John Francis, the janitor.

He had stood in front of a small mirror and placed a police revolver to his right temple, had sent a bullet crashing into his brain.

Hawkins, who had no relatives here, was unmarried and is understood to have a brother in Los Angeles. Although not wealthy, he is reported to have been well to do, and to have had money and property valued at between \$10,000 and \$15,000.

DECIDES SUDDENLY. Up to a year ago and following the earthquake and fire, the dead man resided in Sausalito, and for two years has had desk room in the building at 370 Bush street, occupied by W. E. Boody & Co. Boody, when interviewed this morning, was able to give the best explanation of Hawkins' death.

"I do not think Mr. Hawkins had the least intention of committing suicide when he came to the office yesterday morning," declared Boody. "We usually come down on Sunday morning, but he was discussing and bemoaning the condition of a friend whom he said was suffering from paresis and was probably going to die, although believing himself getting better. Hawkins spoke of this several times. He has also been ill for about a week. I think he had a bilious attack or something of that sort."

PIONEER REALTY MAN. "He was last seen by the janitor at 6:30 last night, and it must have been after that that he killed himself. I can think of no reason why he should want to do such a thing. He was a pioneer in the real estate business and everybody in town knew him."

The broker had only five cents in his pocket when searched by the coroner, but Boody explained that he was well fixed and always had plenty of money. He was about 51 years old and had been residing here, at 302½ Bush street.

SHIP TOTAL LOSS. SAN FRANCISCO, April 24.—A cablegram from Shanghai, received today at the office of the Pacific Mail Steamship Company, in this city, says that the Asia stranded on Finger Island, would prove a total loss. The passengers and mails were taken to Shanghai on a Chinese steamer, and the Chinese crew to Hong Kong on the Japanese steamer American Maru.

Charles Sans Suspected of an Attempt to Dynamite Cassou's Bakery

Similarity in Handwriting and Quarrel With Employer Probed by Police

Similarity in the handwriting of Charles Sans, a French baker and former employee of J. Cassou, together with conflicting statements made by Sans, are taken by the police as the basis for suspecting the man of having sent the blackmailing letters received by Cassou threatening his life and of placing the bomb which wrecked a portion of the Reno lodging house and the bakery at Fifth and Clay streets, Friday morning. The man is being held by the police pending examination and further investigation of the case, and according to Captain of Detectives Walter J. Peterson, may be charged within the next 24 hours.

The motive for attack upon Cassou and his family is found by the police in a grudge which it is believed Sans entertained for Cassou as a result of his being discharged from the Cassou bakery about ten days ago. That this might lead Sans to attempt to intimidate his alleged enemy the police believe is indicated by the character of the man.

Sans, who had been under surveillance for some days, was arrested Saturday night at his rooms at the Victoria house at Eighth and Clay streets, by Detectives Richard McSorley and T. J. Flynn. He afterwards recovered and was sent to the insane asylum for a time. It is thought by the police that he is mentally unbalanced.

He afterwards recovered and was sent to the insane asylum for a time. It is thought by the police that he is mentally unbalanced.

WAS SEEN NEAR PLACE. Captain of Detectives Peterson declared this morning that he had proof that the man was in the neighborhood of the bakery shortly before the bomb was exploded. He stated that he had carefully compared specimens of the man's writing with the blackmailing threatening letters received by Cassou, and finds the handwriting similar. The specimens will be submitted to handwriting experts.

Sans, according to Captain Peterson, at first denied that he could write English, but when called upon to do so, succeeded in turning out a fair specimen of English script. He also denied several other statements made by the police when examining him, and afterwards admitted the facts when he found they knew he was not telling the truth.

According to the detectives, Sans was (Continued on Page 2, Col. 6)

Germany to Mobilize Million Fighting Men

BERLIN, Friday, April 24.—Germany will have under arms during the field maneuvers this summer practically one million men. In addition to the regular army strength of 622,000 men, over 355,000 reservists will be called to the colors, making a total effective strength for the army of 977,000. Adding to these, the men serving with the fleet and an armed force of considerably more than a million will be engaged in the gigantic war game.

PRESIDENT RYAN SUBPOENAED BY JURY

INDIANAPOLIS, April 24.—Frank M. Ryan, president of the International Association of Bridge and Structural Iron Workers, was subpoenaed to appear before the Marion county grand jury this afternoon.

INDIANAPOLIS, April 24.—Investigation declared to be directed toward exposing persons and methods responsible for eighty explosions and great property loss in various parts of the country in the last two years was continued today in this city and at Tiffin, Ohio.

At the latter place Detective William J. Burns and J. A. G. Badorf, assistant counsel for the National Erectors' Association, were following certain details connected with their discovery there last night of 400 pounds of dynamite, "planted" in a shed, and in this city Walter Drew, principal counsel for the Erectors' Association, conferred with the police and with Frank P. Baker, county prosecutor, as to further inquiry to be made in the case.

Burns to Return Today

Drew received a telegram early today from Burns and Badorf, saying they expected to return to Indianapolis late in the day.

Following the arrest of J. J. McNamara, secretary-treasurer of the International Association of Bridge and Structural Iron Workers here, and the arrest of J. B. Bryce (alleged to be J. B. McNamara) and Ortie E. MacManigal at Detroit, all of whom are being taken to Los Angeles to answer indictments charging them with complicity in the Los Angeles Times explosion, in which twenty-one lives were lost, there continued to be rumors today of further arrests, but the police and others concerned declined to comment on them.

The agents of the Erectors' Association, an organization of structural iron constructors, against whose efforts to conduct "open shops" the explosions are supposed to have been directed, also refused to say today whether or not they expected to find more "plants" of dynamite than those already uncovered.

Many "Depots" Are Found

The "depots" in which it is charged the "wrecking crews" stored explosives to be used from time to time so far found are as follows: Shed in rear of home of James McManigal, father of Ortie E. McManigal, at Tiffin, Ohio, 400 pounds of dynamite found last night, alleged to have been stolen from France Stone Company's quarry at Bloomville, Ohio, last January.

SAN FRANCISCO, April 24.—That arrests in connection with the Los Angeles Times dynamiting may be made in San Francisco at any moment, following closely in the wake of the sensational arrests made in Indianapolis and Detroit, is the belief of Chief of Police Seymour, who says that W. J. Burns' detectives have been working constantly in this city since the commission of the Times outrage.

Mrs. J. B. Lavin and Mrs. Flora Caplan, who were under investigation recently in connection with the crime, have been closely watched.

Burns told him, on leaving for the east three months ago, that he had the man who committed the Los Angeles Times bombing located and covered and that he was almost ready to arrest them.

W. McNamara was in San Francisco two years ago on official business connected with his organization, but stayed only a short time.

James W. McNamara, the brother of the international secretary, arrested in London last year the man "Boss" or "Doc" who was the actual perpetrator of the limited actual perpetrator of the ghastly outrage, is not known here among labor leaders. They assert that they did not know that J. W. McNamara had a brother. Orlie E. J. McNamara, arrested in Detroit with J. W. McNamara, is also known to be a principal perpetrator in the crime with J. W. McNamara, is also unknown among the labor men of prominence, and the

It drew the famous Hamburger department store, office and theater buildings, and the famous Waldorf, an enormous profit. It is a fact now conceded by the most conservative bankers and real estate owners that the district from City Broadway is destined to become a well-developed business center.

The sale, to be held on Wednesday, May 3, is a forcing out sale of the closing up of a business by the Harrison Realty Company, a corporation now winding up of the affairs of this company. They have subdivided the property into nine parcels, averaging from 75, 100, 120 to 200-feet frontage, and the same will be offered in the nine subdivisions. Each subdivision of such large frontage makes quite attractive to the large business interests, and is thereby assuring the property of being improved with large and attractive buildings, thus creating added increased future increment values throughout the entire dis-

# BAKER WAS MURDER VICTIM

Little Dog Leads Police to the Spot Where Master Was Hacked to Pieces

Redding Man's Body Thrown Into River After the Fiend Commits Crime

CHICO, Cal., April 24.—G. W. Baker of Redding was murdered last Tuesday night at a lonely camp near the Central irrigation ditch eight miles south of St. John and not far from Willows, the county seat of Glenn county.

This statement was made today by City Marshal Geese, who found yesterday the spot where the crime was committed. The officer was led to the place by a little dog which had been owned by Baker. The dog, which answered to the name of "Toodles," accompanied the master to the camping ground on Tuesday and was seen there the next day by John Scott, a rancher living nearby. Baker was not there, though his team was seen until Wednesday, when it and the five horses Baker had with him, were moved away.

The next morning they were found on the other side of the Sacramento river.

## THROWN INTO RIVER.

At the place where Baker had camped a blood-stained spot was discovered, where apparently the murderer had chopped into the earth to remove blood from the axe he is thought to have used in committing the crime. The officers believe that the body either was thrown into the Sacramento river from the Glenn bridge or hidden on the Glenn county side of that stream.

The little dog was found running up and down the bridge on Thursday, and this strengthens the theory that the body was disposed of there. Bridge-tender Crenshaw, who took charge of the dog, learned on Friday that it had belonged to Baker when it was identified by the latter's brother, Marlon. Yesterday the dog was taken to the bridge, from which it made a bee-line for the camping ground besides the irrigation ditch.

The officers say that important clues to the identity of the murderer have been discovered, but they refuse to make them public until an arrest is made.

# CHARLES L. INGLER THANKS FRIENDS FOR THEIR VOTES

CHARLES L. INGLER.

Charles L. Ingler, the well-known proprietor of Ingler's planing mills located at the corner of Washington and Fourth streets, has issued a letter, thanking his friends for the generous and enthusiastic support they gave him at the recent primary election. Mr. Ingler was a candidate for school director in the number 6 class. He received a splendid vote at the polls, but lacked just enough to get on to the wire for second place.

Had Mr. Ingler run under any other number but 6 he would undoubtedly have been elected school director. He is well and favorably known throughout the city, having served five terms as school director, two terms in the county, and three in the city. He is familiar with all school work and his friends exceedingly regret the fact that he did not get on the list at the primary.

For six years Mr. Ingler has been president of the Mill Owners' association of this city. He has a family, including three grandchildren. As a matter of fact, there is hardly a more popular man in Oakland than Mr. Ingler. His card of thanks is as follows:

## SUPERVISORS TO BUILD NEW BASTILE AT NILES

It is the intention of the supervisors to purchase from Mr. and Mrs. Bernardo Moura for \$350 a lot on which to construct a town jail in Niles. For a number of years the jail of that county has been located under the county water tank in the main street.

The proposed purchase comprises the southwestern 75 feet of lot 25 in block 67, at the intersection of Second and J streets. The matter was referred to the district attorney to prepare the necessary resolution accepting the deed to the property.

An erroneous double assessment of lot 42, block E-794, in Oakland View Homestead tract, was ordered corrected.

The Astoria centennial committee, in a communication, asked for an exhibit of the resources of this county to be made at an exposition which is to be held in Astoria during August of this year, commemorating the founding of the first American settlement west of the Rocky mountains.

The communication was referred to the Alameda County Exposition Association.

# NIEHAUS GETS HALF OF FATHER'S ESTATE

Mother and Son Settle Their Differences Out of Court.

Edward H. A. Niehaus will share equally with his mother, Mathilda Niehaus, in the large estate left by his deceased father, Edward A. Niehaus, the furniture manufacturer of Berkeley. The property has been appraised at \$87,000, on which basis young Niehaus' portion of it will amount to \$43,500. He is the only child and heir-at-law of the dead manufacturer and Mrs. Niehaus and by the terms of the former's will was cut off with a legacy of \$100, the residue of the estate being given to the widow.

After the instrument was admitted to probate and letters testamentary issued to Mrs. Niehaus the son instituted a contest to revoke the probate on the ground that his mother had accomplished his disinheritation by fraud and deceit, principally through the medium of spiritualism. Young Niehaus assigned his mother's bitter enmity toward him to his marriage with a young lady who professed a religion that she, disliked, and during the trial of the contest, in progress before Judge Everett E. Brown up to last Friday evening, he introduced strong testimony which tended to prove his father's occult fanaticism and his mother's alleged domination over him.

## SETTLE OUT OF COURT.

When court convened this forenoon young Niehaus appeared with his counsel, Attorneys Gibson & Woolner and Stanley Moore, and moved the dismissal of the contest on the ground that Niehaus and his mother had arrived at an amicable settlement of their differences. No objection to the motion was made by Attorneys Joseph S. Koford and Lin S. Church, representing the widow, and Judge Brown entered the desired order, discharging the jury that was trying the contest.

The settlement between mother and son was begun after court adjourned last Friday afternoon when Mrs. Niehaus and the young man spoke for the first time in several years and entered Judge Brown's chambers alone and together for a conference which lasted nearly an hour. The first overture was made by the mother, who in the private talk they informed their attorneys that they were desirous of settling their differences out of court.

To this end there was a conference with all the attorneys interested Saturday afternoon, in the office of Gibson & Woolner, where a contract was entered into between Mrs. Niehaus and her son, satisfactorily settling all property rights. It was this agreement that brought about the dismissal of the contest today.

## NIEHAUS TELLS TERMS.

None of the attorneys interested in the case would divulge the terms of the contract, but young Niehaus talked quite freely about them.

He said: "My mother has agreed to concede to me one-half of my father's estate, which rightfully belongs to me. There will be no further litigation between us."

"Has there been a reconciliation between you and Mrs. Niehaus?" the young man was asked. "Hardly that," he replied. "My mother is still inclined to be a little bitter but I hope that time will eliminate this feeling and restore me completely to her favor."

# Declares She Was Offered \$800 Bribe

SAN FRANCISCO, April 24.—Mrs. W. C. Garrity, the woman who last week charged Louis Horn and Israel Toker with bribing her to appear before the Shortall this afternoon and declared that an effort had been made to bribe her to leave town.

She told the court that her real name was Mrs. Charles Howe, and that yesterday a man named Brown called upon her, told her he would give her \$800 if she would leave the city, assuring that he could fix the judge, with \$200.

## COFFEE CONGESTION

Causes a Variety of Ails.

A happy old lady in Wisconsin says: "During the time I was a coffee drinker I was subject to sick headaches, sometimes lasting two or three days, finally ending me for anything. This affliction was caused by the coffee I was drinking. I was a coffee drinker for many years, and a trouble with my heart that was very painful, accompanied by a smothering sensation and faintness."

"Dyspepsia, also, came to make life harder to bear. I took all sorts of patent medicines, but none of them helped me for any length of time."

"The doctors frequently told me that coffee was not good for me, but without coffee I felt as if I had no breakfast. I finally decided about two years ago to abandon the use of coffee entirely, and as I had read a great deal about Postum, I decided to try that for a breakfast beverage."

"I liked the taste of it and was particularly pleased to notice that it did not 'come up' as coffee used to. The bad spells with my heart grew less frequent, and finally ceased altogether, and I have not had an attack of sick headache for more than a year. My digestion is good, too, and I am healthy woman. I know my wonderful restoration to health came from quitting coffee and using Postum." Name given by the Postum Co., Battle Creek, Mich.

"There's a reason," and it is this: Coffee has a direct action on the liver with some people and causes partial congestion of that organ, preventing the natural outlet of the secretions. Then may follow biliousness, sallow skin, headaches, constipation and finally a change of the blood corpuscles and nervous prostration. Some read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

Close to seven thousand people came away from the opening meet at the Motordrome and voted it a success as a nerve thriller and sensation furnisher. True, the first few races on the program, in which the amateur riders appeared, weren't exciting enough to call forth even a faint applause. This class of racing will never again be put on a day's card. The last two races of the day, however, the five-mile professional motorcycle event, and the feature race of the day, the fifty-mile automobile race, had the crowd on edge and in a state of excitement every second.

In the history of automobile and motorcycle racing in the west—and in years past there have been some exciting ones—there was never a race to equal the sensationalism which featured the two events. Taking them in order, the five-mile professional motorcycle race, which was next to the last event on the program, found the spectators in a frame of mind anything but enthusiastic over the popularity of motor-drome racing. And they had reason to be. The fault did not rest with the management entirely. A varied card of motor races had been asked for which would give the amateurs an opportunity to shine. They were given everything asked, and the amateur events proved to be bloomers, judged from a spectator's point of view.

### RACE HARD FOUGHT.

Balke, Graves and Seymour answered the starter's call for the last motor event of the day. Coming to the starting line they circled the pole half a dozen times in order to give Renault an opportunity to get his machine ready for the fray. When he did get going it was for but a moment, and the heat was started without him. Seymour drew the pole position, with Graves in No. 2 place and Balke running third. From the drop of the flag the battle for first position was a hard fought one. First Seymour, and then Balke, with Graves running right behind and fighting the other two every inch of the way. If anything, to Graves is due as much credit as to the winner. His opponents were both riding under the same color and for the same factory, the

## SAUCER-SHAPED TRACK IS SCENE OF THRILLS SCORCHERS SUPPLY A SERIES OF SENSATIONS

Left to right—Upper, the Ford, winner of the free-for-all automobile race—the Maxwell, winner of the 5-mile race and second in the fifty. Lower—left to right—O'Brien and Schuman, the victorious Ford crew; Fearless Balke of the big motorcycle race.

of either car or driver, an accident put it out of the running.

The decision to start the race over was not pleasing to many, who, because of the lateness in getting the last race started had become rather disappointed.

When the five cars did get under way, the prettiest race ever held on any speedway in the world was witnessed. All five, the Ford, Cutting, Velle, Maxwell and Cole were off in a bunch. Lap after lap it proved a neck and neck race with the advantage in favor of the Velle, the Maxwell second and the little Ford third.

### RUN WHEEL AND WHEEL.

Soon the cars commenced to stretch out. The Velle continued to gain ground while the Maxwell and Ford were fighting it out for second place, with the Cole and Cutting running third almost wheel and wheel. About the 15th mile all five came together with the Cutting, Ford and Cole running abreast, the Cole driver was making a superhuman effort to take the lead through a hole just big enough for it to pass. Then, before one could catch a breath, the Cole hit the fence.

For an instant it appeared as though a terrible accident was inevitable and that Jenkins and his car would be dashed to pieces. Righting himself almost as quickly as he had lost control, he was again on his way looking for more trouble.

Passing the grandstand he hit the fence twice again in succession, and each time death stared him in the face.

Nothing but a cool head and steady nerve brought him through safely. The experience was enough, however, to cause him to draw in his horns and drive more carefully. For his daring he is to be credited, for his actions after race, if the accusations made against

him are true, he deserves the severest punishment which can be meted out.

### VELIE CAR RETIRED.

The Velle went out about the thirtieth mile on account of a broken gasoline line. The accident happened with Thompson, the driver, three laps to the good, and the race apparently won. The accident kept him out for fourteen laps. When he did come back he was hopelessly beaten.

In the 85th lap, Cooper, the Maxwell, tent race, stopped for oil. Poor coaching on this score cost him the race. Had he continued he would have been a winner by over two laps.

To O'Brien, the little Irishman, who handled the Ford, the greatest praise in the world is due. The little "runt," they nicknamed him before the race on account of his smallness physically. He drove the coolest race of the day, never varying two seconds for any mile. Not once did he stop and never at any time did he play to the grandstand by sensational stunts.

### McNAY LOST NERVE.

The only other car which didn't leave the track for any kind of trouble was the Cutting. Here again consistency was evident at all times. To the writer's way of thinking, had another man been at the wheel a different story might have been told. McNay came to the coast with the reputation of being a daring driver. In practice Friday and Saturday his car showed more speed for the mile than any of the others which figured in the race.

Like the over-trained prize fighter, though, in the actual fight, he must have left all his speed in the training camp, and nerve also. At any rate there was something lacking in his showing. More will be heard from this car in the coming 24 hour contest. It can be relied upon to be in the running at all times.

The other two automobile races were of a less exciting nature. The race between the Ford and Flinders was a disappointment. The Ford had matters all its own way and was at no time pushed. The Maxwell won the five mile race against the Cutting and Cole, the latter finishing second.

The motorcycle races were sensational only with the professionals. The remainder of amateur races showed nothing to merit any comment.

With better management in the future, and this should be had, the experience of yesterday being a valuable lesson, this motordrome will prove to be a success in every way, provided the same class of sport is furnished that was put up in the last automobile race of yesterday.

### RESULTS OF RACES.

Five miles—Won by Maxwell, driver by Earl Cooper, second, Cole, driven by J. Jenkins; third, Cutting, driven by McNay. Time, 4:49 4-5.

## SAVANTS OF PAST ENGLISH PURISTS

President of Brown University Says Present-Day Diction Is Not So Good.

BOSTON, April 24.—That the men who translated the King James Bible 250 years ago knew how to use the English language better than any body of scholars that could be gathered together in the whole world today, is the opinion of President William H. Faunce of Brown University. Speaking at the Bible Convention in Trinity church last night, Dr. Faunce said:

"Men knew how to use language just as well then as we know now the English today. We cannot equal them. We know too much to be simple. We have too many doubts to be so sure; we are too conscientious of the verdicts of critics to aim straight at the hearts of the people."

"Since 1611 no man in England or America has written in such direct or simple style as these Bible translators," said John Bunyan and Abraham Lincoln—the latter in his second inaugural and Gettysburg addresses.

**TWO HURT WHEN BOYS ROLL BOULDER DOWN HILL**

SANTA ROSA, April 24.—A heavy boulder, started down a steep hill by boys in play, rolled into the camp of the Ferguson family at Peachland, near here, Saturday night, fracturing the skull of Kessner Ferguson and injuring his mother.

Mrs. Mary Laire of Santa Rosa, who was camping nearby, heard the screams of the mother and ran nearly two miles to the town of Melita to telephone to Santa Rosa for help. The boy's father, a real estate man of this city, was notified and started for the camp with two doctors. An ambulance was sent along and the injured lad was brought to the Katherine Hospital in this city. His recovery is considered doubtful.

Mrs. Ferguson was struck in the back by the huge stone and stunned. When she recovered her senses she saw the boy unconscious at her feet. The boy who rolled the stone had not been found.

**POSTOFFICE DEFICIT PRACTICALLY WIPED OUT**

WASHINGTON, April 24.—"A deficit in the operation of the postoffice department of \$17,600,000 inherited by the present administration, practically has been wiped out," said Postmaster General Hitchcock. He has just received from the department auditor a final report showing that the revenues for the first six months of the current fiscal year aggregated \$118,778,181 and expenditures \$118,614,680.

## OSTEOPATHY, A NATURAL AND RATIONAL SYSTEM OF HEALING

That a natural system of treating diseased conditions of the human body is the best method is a reasonable hypothesis. With every organ and part of the body in its proper place and with a normal blood and nerve supply it is reasonable to suppose that recovery from disease of any part is more likely to occur. The osteopathic physician maintains that the bony misplacements, abnormal relation of parts and continuous muscular contractions interfere with a normal blood and nerve circulation, and by his superior technical knowledge of the human anatomy and his educated finger tips he is able to locate these abnormalities and by skilled manipulation reduces them, thus allowing normal nerve and blood supply to all parts, and recovery from disease is more apt to result.

Many chronic conditions which do not entirely incapacitate one make life such a burden that the individual is able to perform his average duties only by a superhuman effort. Among these conditions may be mentioned chronic constipation, catarrhs and laxatives give only temporary relief and after the immediate effect of the drug has worn off the individual is in the same or a worse condition. Osteopathic treatment removes the obstruction to a normal nerve and blood supply; the tonicity and the normal secretions of the intestines are re-established and normal function is the result.

A sedentary mode of life is productive of indigestion as well as constipation. A feeling of fullness or distention, pain, pressure in the abdominal region, gaseous and acid regurgitations, sour stomach, nausea, sometimes vertigo and sometimes after meals, headache and backache are warnings to which one should heed, as they may be indicative of stomach troubles of various kinds. The indiscriminate taking of drugs only increases these difficulties. Osteopathic treatment stimulates the nerves supplying the stomach, the gastric glands are stimulated to increased activity and the muscularity of the stomach is strengthened.

Restless sleep sometimes broken by unpleasant dreams, insomnia, intense wear-

## TRAFFIC AGENTS TO AMEND RULES

The California Association Will Draw Up New By-laws at Meeting.

SAN FRANCISCO, April 24.—The California Association of Traffic Agents will hold a meeting and banquet at 658 Market street, Thursday at 7 p. m. This meeting promises to be one of the largest and most important ever held by the association. New by-laws will be considered. Among other things the initiation fee and dues will likely be increased. Arrangements will be made for the Grand Canyon trip May 25 to 30 over the Santa Fe. Several prominent railroad officials will address the members at their meeting Thursday night. J. K. Butler, traffic statistician general freight department, Southern Pacific; C. W. Durbrow, attorney Southern Pacific; Charles S. Fee, passenger traffic manager Southern Pacific; W. A. Bissell, traffic manager Santa Fe; R. L. Lomax, general passenger agent Western Pacific; E. E. Wadsworth, assistant general passenger Southern Pacific, will be among the speakers.

**PROTECTING MINERS TO COST \$4,500,000**

HARRISBURG, Pa., April 24.—James E. Roderick, state chief of mines, has made a calculation of the cost of protecting miners in bituminous coal mines, if the proposed code to regulate such operation in this state becomes a law, and places it at three cents per ton. The average yearly production is about 150,000,000 tons and total expense will therefore approximate \$4,500,000. The bill was drawn to safeguard the miners and to protect property.

**ALLEGED BUNCO MAN FACES PROSECUTION**

Frank Tracy, known here as Charles Hopburn, it is said, was brought to police headquarters from Ocean Park, Los Angeles, and is alleged to be the bunco man who robbed W. Maxwell \$5000 at the Winsor bar some time ago.

**KICKED BY A MAD HORSE.** Samuel Birch of Beetown, Wis., had a most narrow escape from losing his leg, as no yearly could hold the front seat of a developed, but at last Buckle's America Salvo cured it completely. ## AUTOS ARE WANTED BY CHAMBER OF COMMERCE

Public Spirited Citizens Asked to Donate Use of Cars Tomorrow.

**AT LEAST DOZEN MACHINES REQUIRED**

Will Be Utilized in Showing the City to Pennsylvania R. R. Conductors.

From twenty to thirty conductors on the Pennsylvania system—men who are constantly meeting the traveling public, and are in a position to put in a good word for any city which impresses them favorably, will be in Oakland tomorrow. A request has been issued by the Oakland chamber of commerce for at least ten or twelve automobiles, that these gentlemen may be given an opportunity to see Oakland to advantage.

Similar courtesy has been shown them by Portland and Seattle, and will be tendered them by San Francisco and Los Angeles. Thus far the appeal of the Oakland chamber of commerce has received two responses, one from James Vance, 305 Euclid avenue, and from Ed W. Reed, of the Lymann Real Estate Company. The other day San Leandro voluntarily placed fifteen automobiles at the disposal of the Oakland chamber of commerce that a body of visiting tourists might be shown their city.

The failure to respond promptly to this request for automobiles may be accounted for in some measure by the fact that their may be a misunderstanding as to the date, some announcements having been made that the conductors would be here on Thursday, instead of Tuesday. It is not too late, however, for persons wishing to display public spirit and assist in their entertainment to notify the secretary of the Oakland chamber of commerce by calling up Sunset phone Oakland 178 and Home phone A-5911.

## DRIVER COTTER'S NARROW ESCAPE

Alleged Crowding Causes the Cutter Car He Was Piloting to Turn Over.

A performance not billed on the program of yesterday's races happened near the repair pits about 15 minutes after the close of the race. The crowds had departed and the various racing crews were picking up their traps ready to leave the grounds.

Cotter, the mechanic for the Cutting, was the car around for a final "run" for the day, so also was Jenkins Cole driver. Cotter had the pole; so eye witnesses state, and the Cole was following close upon him. After two or three laps the car over the top of the bridge and the Cutting toward the bottom of the track. A statement from one of the Cutting representatives best explains the mix-up which followed.

"With the two cars rounding the track," he claims, "and as they were nearing the pits, the Cole driver, Jenkins started to crowd young Cotter, who was driving our car. In front of the repair pits he ran the Cutting clear off the track and into the Velle which was standing close to the edge of it. The effect of the collision was to cause the Cutting to turn two complete circles on the track and clear over on the ground before coming to a stop. That Cotter wasn't killed is a miracle."

Eye witnesses state that it was a reprehensible trick and one which warrants immediate action on the part of the contest board of the A. A. U. of which Percy Walker is representative.

Any number of eye witnesses were present and to a man they denounce Cotter. An explanation was given by him and until it is forthcoming he should be held in anything but the light of a clean driver.

It is to be hoped that he does make some explanation.

**NATIONAL GUARDSMEN TO LEARN AVIATION**

NEW YORK, April 24.—The signal corps of the District of Columbia National Guard has enlisted Anthony B. Eilers, an aviator, to instruct and train the guard on its annual encampment in July and instruct members of the signal corps in aviation.

It is understood that an "aerial squad" will be formed and that two or three aeroplanes will be at the service of the guardsmen.

**RANDLE MAY STEP INTO ELLERY'S SHOES**

SACRAMENTO, April 24.—Some time next month Governor Johnson will appoint a state engineer to succeed E. Ellery, whose term expires in May. Governor Johnson has not indicated who he will select to succeed Ellery, but it is generally understood that City Engineer Randle of Sacramento is slated for the job, and no surprise would follow if the latter were selected to the place. George Randle has been City Engineer for the city of Sacramento for many years.

**S. P. THANKED FOR NEW DEPOT AT TULARE**

TULARE, April 24.—At a special meeting of the board of trade, held to consider this subject, resolutions were adopted by unanimous vote, thanking the officials of the Southern Pacific for the handsome new railway station which has just been completed. As the Santa Fe already has a handsome building here, Tulare is as well provided with railroad properties as any city in the San Joaquin valley.

**S. P. Makes Excursion Rates to Minneapolis and Return.**

Commencing May 12 and 13 excursion tickets will be sold to above named city at \$73.50, final return limit October 31. For further information see Southern Pacific Company, Broadway and 13th sts., Oakland, or Agents.

## GOVERNOR NAMES COMMISSIONERS

Conservation Members and the Board of Control Thereof Are Appointed.

SACRAMENTO, April 24.—Governor Johnson today named the members of the conservation commission and also the conservation board of control as follows: Former Governor George C. Pardee, Alameda; Ralph W. Bull, Humboldt; and Francis Cuttle, Riverside. This will investigate and gather data and information concerning the subjects of forestry, water, the use of water, water power, electricity, electrical and other power, mines and mining, mineral and other lands, dredging, reclamation and irrigation and for keeping, systematizing and re-framing the laws of the state pertaining to these subjects.

One hundred thousand dollars was appropriated by the legislature to be used by the commission in carrying out the provisions of the act.

The commission is to be known as the Conservation Commission of the State of California, shall not receive pay for their service, and they shall report their findings at the session of the legislature in 1913. The members of the conservation board of control named by the Governor are Professor Chas. D. Marx, Stanford University; S. G. Graham, Los Angeles; and Harold Lower, Placer county.

**MANY TO ATTEND 'KETTLE DRUM'**

Noted Musicians to Be Heard Tonight at Original Entertainment.

The "kettle drum" to be given tonight by Mrs. B. M. McCarthy at her home, 2665 Piedmont avenue, for the benefit of St. Leo's parish, promises to be one of the most successful of the after-lenten affairs. A large number of tickets have been sold, and it is expected the proceeds to be realized will equal if not exceed expectations.

Everything possible to add to the enjoyment and entertainment of the guests has been arranged by the hostess and an able corps of assistants. On the program for the evening are a number of prominent musicians and vocalists, including Cavalier Ricardo A. de S. En-carnacao, who will give a bass solo; Miss Sarah Kauntz of San Francisco, Miss Mary Lambert, Mrs. M. C. Dwyer and others.

Large McCarthy house has been attractively decorated for the affair and the grounds illuminated with various colored electric lights.

**BODY OF CARPENTER TAKEN FROM ESTUARY**

The body of Thomas Conway, a carpenter who lived at 805 Grove street, was recovered this afternoon from the estuary at the foot of Fourteenth avenue, East Oakland, where it had drifted from the Webster street bridge, from which Conway was thrown when he fell from the recovery of the body was made by Captain John Peterson, and the body was taken to the morgue.

Conway, who was about 40 years of age and unmarried, was at work with other carpenters on the bridge and in prying loose a stringer, lost his purchase on the bar and fell from the bridge. Conway was made to rescue the man, but he is thought to have struck his head against a timber, which rendered him unconscious and allowed him to sink out of sight without a struggle. He is survived by a sister.

**BULLSHEAD BREAKFAST LEADS TO KNIFE DUEL**

BERKELEY, April 24.—As a result of a fight with butcher knives following a breakfast at the Prince's saloon at Stage yesterday, Umberto Ramonelli, a young man residing at 11 Sutter street, San Francisco, was taken to Roosevelt hospital late last evening suffering from a serious knife wound in the back.

The injury is a serious one. The knife was deflected in striking a rib. But for this, the lungs would probably have been punctured. The rib was fractured by the contact of the knife.

**SLATTERY GETS PAROLE.** Mike Slattery, arrested last week at Tracy on a charge of having stolen 15 sacks of grain from a local merchant on Eleventh street, was tried before Judge George Samuels this morning and found guilty of the offense charged. Although he has been in trouble before, the promise of the young man to reform was accepted by the court and the commitment to spend six months in the city prison was withheld.

**S. P. Makes Excursion Rates to Druids' Carnival.**

On April 25 to 28, low excursion tickets will be sold to Livermore from Oakland, San Francisco, Stockton, San Jose and various points at one fare and one-third; final return limit May 1. For further information see Southern Pacific agents.

## DR. HYDE BEGINS HIS SECOND FIGHT

Physician's Attorneys Argue on Application for Habeas Corpus Writ.

KANSAS CITY, April 24.—Arguments on the application for a writ of habeas corpus for Dr. E. C. Hyde, under a life sentence for the murder of Colonel Thomas H. Swope, were begun before Judge James Slover of the circuit court here today.

Dr. Hyde was in the courtroom, it being the first time he has been allowed to leave the county jail since the birth of his son last September.

The release of Dr. Hyde sets forth two reasons why he should be given his liberty on bond; first, that the proof was not evident and the presumption was not great that the physician is guilty of murder in the first degree; second, that he is not guilty.

Attorney Frank P. Walsh made the principal argument for the prisoner, and County Prosecutor Virgil Conkling represented the state. Walsh argued that the opinion of the supreme court by which the first trial of Dr. Hyde was reversed and remanded, attacked the state not for showing that Col. Swope died of poisoning as charged, but rather that death was due to senile debility.

**DICKINSON POSTPONES CLOSE OF AGREEMENT UNTIL LAST OF MONTH.**

WASHINGTON, April 24.—The contract between the government-owned Panama Railroad Co. and its co-carriers, the Pacific Mail and California Atlantic Steamship Companies in regard to the freight rates from San Francisco to New York via the Panama Railway due to expire today, has been continued by Secretary of War Dickinson until April 30.

The delay in entering into a new contract is due to a desire by the government that its action shall not cause a rate war between the Pacific co-carriers of the railroad and the American Hawaiian Steamship Company, a competitor.

It is intimated that the present contract may be continued until June 12. In the new contract the present division of the rates between the Pacific carriers and 80 per cent to the railroad and its Atlantic steamship lines will be changed to 60 and 40.

**MYSTERY SURROUNDS COUNT'S CLOSE ESCAPE**

SAN FRANCISCO, April 24.—Found unconscious in a gas-filled room at 1838 Scott street, Count Von Rabenow, a member of a distinguished German family, was taken to the Central emergency hospital today and has a fighting chance for life.

Von Rabenow has been employed as a druggist by a local pharmacy and Superintendent of Relief of the German hospital, a close friend, declares that his condition is the result of an accident and not an attempt at suicide. The fact that one of the windows in the room was open bears out this theory.

Rabenow declined to give any further information regarding the count.

**NEWSPAPERMAN GETS POSITION IN CAPITAL**

SACRAMENTO, April 24.—H. A. French, a former San Francisco newspaperman, until recently connected with the publicity bureau of the Pacific Panama exposition corporation and at one time connected with the Sacramento chamber of commerce, was named today by Capitol Superintendent George Radcliffe as chief clerk to Radcliffe. The job pays a salary of \$1800 a year.

**FIRE IN CLOTHES CLOSET.**

A small fire occurred in the rooms of W. E. Buck, a tenant of F. T. Eschalla, at 183 Eighth street last night. The fire was discovered at 9:47 and was quickly put out by the fire department, about \$150 damage resulting. It is not known how the fire started, but it is thought that it was due to carelessness. It was found among the old clothes in a clothes closet.

**CHIEF CLERK RECOVERED.**

Albert Classen, for many years chief clerk of the freight department at the Southern Pacific depot at Fifth and Kirkham streets, who has been on the sick list for the last month, will be back at his desk again within a few days. Classen has been under the doctor's care at his home, 341 Twentieth street.

**SENATORS TAKE OATH.**

WASHINGTON, April 24.—Wm. S. Kenyon of Iowa and Nathan P. Bryan of Florida took the oath of office in the Senate today as senators.

## Oakland's Fame Growing Abroad.

It is by such comparisons as were made by William J. Layman in Sunday's TRIBUNE between the building activity in Oakland and in other cities in the United States that we are able to get an intelligent and trustworthy understanding of Oakland's remarkable growth. THE TRIBUNE has previously described how the building record of seventy-three cities in the United States, compiled and tabulated by the Chicago Construction News, showed that in 1909 Oakland ranked thirtieth in the list in the value of new building construction, and in 1910 moved up to the twenty-seventh position. Now Mr. Layman calls special attention to the fact that during the first quarter of 1911 this city has advanced to the position of the seventeenth city in the list. During this quarter the number of permits issued in Oakland only fell ninety-six short of equaling the former city of New York and the boroughs of Manhattan and the Bronx, while it outranked such well-known and populous cities as Pittsburg, Jersey City, Kansas City, Denver, St. Paul, Rochester, Baltimore, Milwaukee, Indianapolis, Cincinnati, Atlanta and nearly a score of other cities equal in population and commercial and industrial importance.

In the value of new building construction during the quarter, Oakland outranks Kansas City, Seattle, Rochester, Denver, Louisville, Buffalo, Richmond, Atlanta, Memphis, Omaha, Houston, Hartford, Dallas, Worcester, Spokane, Toledo, O., Birmingham, Paterson, N. J., Grand Rapids, Springfield, Scranton, Pa., Chattanooga, Oklahoma City, New Orleans, Jacksonville, Columbus, Davenport, San Antonio, Fort Worth, Des Moines, Tacoma, Salt Lake City, New Haven, Conn., and many others. Attention is also drawn to the fact that Oakland's March building record was ahead of Pittsburg and Newark, and it was associated in the million-dollar class with such well-known and populous cities as Baltimore, Cincinnati, Minneapolis and Milwaukee.

Too much importance cannot be attached to these comparisons. They give the residents of these Eastern cities a better idea of the progress Oakland is making than any word description, however graphic, can give. It is not, therefore, surprising that Oakland is being regarded by capitalists and others residing in the leading cities east of the Rocky Mountains as one of the most promising fields for investment in realty in the country, as is evidenced by the numerous inquiries that are being received from them for information relating to opportunities existing here for the profitable investment and employment of capital.

The trouble with the law prohibiting the importation of opium is that it does not prohibit. It has, however, given a tremendous boost to smuggling and, despite the extensive seizures of the drug that have been made by customs officers for many months past, the illicit industry seems to thrive amazingly.

Before the fish combine was broken housekeepers in the bay cities had to pay 15 cents per pound for shad, and other food fishes in the same proportion, at the retail stands. Now that the fish combine has been smashed by the application of the anti-trust laws through the agency of the courts, shad is retailing at the price at which it was sold before the combine was organized, namely, at 5 cents per pound. It is easy enough to determine now what was the real cost of high living to the public in past years. The breaking up of the cold-storage trust has reduced the price of eggs and butter, but the combine of the creameries and dairymen still has a cinch on the delivery of skimmed milk to consumers as the alleged direct product of the milch cow; the prosecution of the meat packers and the beef trusts has reduced the cost of fresh and cured meats, and cost of living is gradually getting down to a normal level.

New potatoes retailing at 10 cents per pound constitute a rare luxury this year to the consumer, and a rich bonanza to the producer.

The five days' truce agreed to between the Mexican government and the insurrecto leaders, which went into effect yesterday noon, promises to put an end to the internal troubles which have disturbed the neighboring republic and kept the United States government in fear of getting entangled in the mess for several weeks past, and restore permanent peace. The Diaz government has consented to introduce all the reforms demanded by the insurrectos save the abdication of Diaz as President, and Madero, the leader of the revolution, has denied that the resignation was demanded. The situation appears, therefore, to be totally free from embarrassments and the conclusion of terms of peace honorable to both sides only a matter of form. Neither side is disposed to shed any more blood.

The wealth of wild flowers in Alameda county this spring is unprecedented and the pasture lands and marshes are in the height of their glory at present.

The opening day auto races at the Elmhurst motordrome yesterday seems to have totally obscured the fact that it was the three hundredth anniversary of King James' translation of the Bible, a book which has exerted more influence in the civilization of the world since its first publication than any other in existence. In many parts of the country the Young Men's Christian Associations made the celebration of the anniversary a special feature. In Los Angeles it took the form of a public parade of about two thousand members of religious clubs and associations carrying Bibles.

## Britain Declares War on Rats.

Great Britain is about to take up the task of exterminating rats. Statisticians estimate that the rat population in England numbers 40,000,000, which is about two to one of the human population, and that they destroy at least \$50,000,000 worth of property annually. Both estimates are doubtless conservative. The extermination of rats in Britain has, therefore, developed into an economic question of the first importance. If the 40,000,000 rats can be by a systematic crusade, be exterminated, it presumptively means the saving to the nation of \$50,000,000 a year in the matter of food products which they destroy.

To wage a rat war of extermination successfully in Great Britain will involve an expenditure of many millions of pounds sterling. But one year's savings in property now destroyed by the rodent will doubtless leave a big margin of profit. The Council of the Central Associated Charities of Agriculture has appealed to the government to free the country of the pest, not only on economic grounds, but on sanitary grounds, also. Rats are recognized there now as not only destroyers of food products on a big scale, but as carriers and distributors of disease. Their value as public scavengers is overshadowed by their predatory habits and their menace to the public health. The balancing of the account is against them.

The Norway rat, against which the war is being waged in this country, and which is about to be inaugurated in Great Britain, is, in fact, the most destructive and dangerous of pests afflicting the human race. Migratory in its habits, it has invaded every

country with which commerce has been established. It has colonized every seaport in the world. As the greatest of commercial nations, Great Britain is not only most seriously infested by it, but has been most responsible for its distribution the world over. It is no longer Norway, but Great Britain that has become the chief source of rat colonization through its merchant ships which plow the waters of every sea. If the rats of the tight little island can be exterminated, the world at large will be a beneficiary. And other commercial nations will take note of its work and follow its example.

The war of extermination against the Norway rat was started in California as a measure of protection against the introduction here of bubonic plague—the most baneful and dangerous of all Oriental scourges, the responsibility for the dissemination of which has been scientifically traced directly to it. It has cost the bay cities a large sum of money to carry on the war against rats during the past five years. They have all protested against the tax imposed upon them for the purpose because of the graft figuring in it; but after all, everything considered, the bay region has benefited more than the cost from it, graft and all included. Whether we were ever in real danger from a bubonic plague epidemic through the rat colony or not, the extermination of rats has been a positively economic gain greatly exceeding the cost. If all communities and all commercial nations were to join the war of rat extermination, the world's economics would reap the benefit of it.

## AN UNROMANTIC GEM

The Hope diamond, about which so much romance—and nonsense—clusters, is in a sad way. There is neither romance nor nonsense in litigation based on a dispute over an installment plan transaction. That "no gentleman should ever appear in court" is a polite maxim which too few are inclined to adhere to in these litigious times and many unable to. The Hope diamond as an item in a civil suit presents a spectacle altogether incongruous with the refined nature of the fatality which is supposed to be associated with it. That the gem is guaranteed to "bring bad luck" to its possessor is a tradition that surely never contemplated such bad luck as a squabble over a little bill for it, in an unpicturesque and chilling court of law.

Because a Washington bridegroom was reported to have purchased the Hope diamond for his bride much interest was aroused wherever the fantastic annals of this international gem have been related. Was another heedless, or daring, investor to become its victim? Or, would the malevolent influence of the gem on human destinies be shown to have been quite exhausted?

It is disclosed with unexpected suddenness that the Hope diamond is still capable of making trouble, of a kind. The jeweler who asserts that he sold it is demanding his money. The alleged purchaser denies that he engaged to take it "for keeps." The price named in the transaction is \$180,000, but the Hope diamond seems to become dim with loss of prestige when it is further disclosed—that the cash show-down was to be only \$40,000. The balance was to be paid "in bi-monthly installments covering a period of three years," further accommodation being reflected in an agreement to "trade in" certain jewels. The jeweler is now suing on his contract, as alleged. The party of the other part repudiates the contract, declaring additionally misrepresentations respecting the market value of the famous gem, and offers to return the bauble.

The theme of two continents owes its name to a Mr. Henry Thomas Hope of England, banker. The romance surrounding it is probably the invention of an American newspaper man. In the course of its eighty years of authenticated history it has changed hands many times, crossed the ocean several times and wandered about Europe, on occasion being in the possession of persons in the public eye.—Providence Journal.

## PHILANTHROPY A MANIA?

In an address to the men of the Christian church of St. Louis not long ago Mr. R. A. Long of Kansas City made the remarkable statement that he sometimes believed the giving of money to charity became a mania, as he was possessed more all the time with the desire to make gifts when he saw suffering and misery.

Mr. Long's experience in this respect is not unusual. As a general thing men are at first reluctant to give money to charity and do so, if at all, only from a sense of duty. George Peabody, one of the greatest philanthropists this country has ever produced, often declared that in the beginning of his career in the field of philanthropy he felt the greatest aversion to making charitable donations. Like Mr. Long, however, he said that as time passed he not only overcame this aversion, but as he gave more and more he learned finally that giving to charity is the purest pleasure in life.

Most men feel a repugnance to parting with their money. It is man's selfish nature to be opposed to giving something

for nothing, and the average man who has earned his money by hard labor and perhaps severe self-denial obeys a natural instinct when he hates to give away money which in his eyes, as well as in the public mind, measures the value of his toil and self-sacrifice, and goes far towards determining his standing in society and the business world. He feels that he has set himself back in the game of life in proportion to the amount of his giving. But as a matter of fact, he has, on the contrary, really made a great advance, which becomes apparent first in an increased self-respect and next in the esteem and regard of all men who know him. Then, as he gives more and more, he comes to realize the pure sense of happiness in philanthropic work which Mr. Peabody described. His life becomes like that of a man whose path, the good book tells us, is as a light which shineth more and more unto the perfect day. He has learned the great truth that the purest happiness in this world is found in living for others, in self-denial and toil, not only for those we love, for that in some degree is a selfish pleasure, but in service for all suffering and needy humanity.—Kansas City Journal.

## POETRY OF SKIRTS

The harem skirt will die of its own putrefaction. It is modesty itself, incensing the nether limbs of womanhood, as in a sack, lending itself neither to the vagaries of wind nor to the grace of motion in the wearer. The harem skirt lacks zest. It is not piquant, it suggests nothing, it is nothing. In fact, it is no skirt at all. Where is there room for the daintiness, fluttering fabric, for the swift vision of ankles on a rainy day, for the art that conceals art; where, in brief, is there stimulus in the puckering strings of the bagged skirt? Romance has ever hedged about the skirt. Man has followed for centuries its swish and its swirl, its vague possibilities, its remote suggestion of ankles and limbs, its tantalizing grace, and will continue to do so as long as the eternal feminine with its eternal question mark endures.

Imagine childish girlhood without its brief skirt. Imagine all the years of womanly development, and of romance without the lengthening skirt with its atmosphere of possibilities. Imagine woman deprived of all the imagination that clings to this most graceful and fascinating of garments, and garbed in two clothespin bags with puckering strings at the ankles. The skirt is subtle; the harem pantaloons are the personification of the obvious, the unsuggestive and the unromantic.—Detroit News.

## BEAUTY AND HAIR

Hair seems so necessary to women. When they find it failing them, they seek a mercenary reinforcement from any and every mart of the world. The women of distant lands shear their own black locks—has anyone ever heard of any hair in the market place that was shown in blond locks—and barter them for western gold. We levy tribute upon China and the Isles of the South sea and upon Japan and upon India and upon—we dare not say what other regions—in order that our women may twist and pile tress upon tress and lay those snares that no man may escape. Even the austere Paul who admonished Timothy that women should not appear with brodered hair, knew and valued a woman's hair. In writing to the Corinthians he may have conceived a little to the spirit of that gay metropolis, for he said that if a woman have long hair it is a glory to her.

A glory to her—and one diadem or galaxy of hair different in glory from another even as the stars. Some of us prefer tresses as black as Ethiopia. But no matter what the color, it is all endowed with equal glory and charm and power. The gold that ensnared the imagination of Browning was no more entrancing than the dusky locks that entrapped the fancy of Umar the Tentmaker, and of Milton the stern Puritan.—Columbia, S. C., State.

## RHYMED STUFF

CHANGE OF VENUE.  
Our Willie's whims, our Neddy's noise  
Are heard no more. The smallest mouse  
Wakes echoes greater than our boys  
About the house.

No more their maddened, muddy feet  
Stamp on the floor with weight of woe;  
And when I seek a stifled retreat  
Straight home I go.

No more wall throws to wall the sound  
Of twin boys scrapping o'er some toy  
Or picture book. Home now I've found  
A place of joy.

Why does the noise itself secrete?  
Why does calm silence cover all?  
The boys now yell upon the street—  
They're playing ball!

## Bachelor Musings

The hardest habit to acquire is having money.  
The baby seems to grow more and more like a father every day it doesn't.  
If a woman is displeased with a man flattery it's because there isn't more of it.  
The more anybody could improve on his own morals the more he would think it was somebody else's turn.  
Foolish how nice your wife is this week. Oh, you Easter hat!—New York Press.

## 20 YEARS AGO IN OAKLAND

At a meeting of the Madison tennis club, held Tuesday evening at the residence of W. A. Jacobs, new members were elected as follows: J. M. Brady, Miss Bertha Crouch, H. Robbins and Will Gardner.

Major E. A. Sherman will deliver a lecture on the Mexican war at the Oakland high school building tomorrow night under the patronage of Delta chapter, of the Gamma Eta Kappa fraternity.

William Sagehorn, the pioneer hay and grain dealer is not favorably inclined to the Huntington proposition to sink the Seventh street steam railway. He says: "I believe the local steam railway should be moved to First street and a cable road take its place on Seventh street and fares collected. Hereafter, the city council should insist when granting franchises that all roads running north and south should extend to First street."

Edmund Brown and G. L. Brock have purchased the ranch of W. H. N. Jones, near Wyandotte, Butte county.

Among the Oaklanders who are traveling are: Mr. and Mrs. J. R. Burnham, Mr. and Mrs. R. M. James, W. H. Brown, W. W. Whitson, Mrs. H. H. Davis, George A. Warder, A. H. Blow, R. P. Bromley, J. J. McIntyre, Mr. and Mrs. George P. Morrell, Mr. and Mrs. E. H. Bowles, C. M. Fisher and Rev. C. H. Hobart.

Mayor M. C. Chapman has appointed Robert A. Hughes, Esq., as expert accountant to examine the books and affairs of each department of the city government during the present fiscal year. J. W. Layman has gone to Santa Rosa to transact a real estate deal that

will amount to a transfer of property valued at \$15,000.

Just 32 hours ahead of President Harrison, Sarah Bernhardt rolled into the Oakland pier on a special train. The car was covered with desert dust but inside there were flowers from one end to the other, roses, lilies and lilies, but above all there was Sarah herself, the divine Sarah who rivaled the flowers themselves in brilliancy.

Bicycles have become a feature of Livermore. Almost any evening one may hear the far-off chorus of some popular song, more or less melodiously rendered, and soon from two to a dozen riders wheel around the corner and flash out of sight in the moonlight of the fine roads.

Among those who attended the great charity concert given in the Oakland theater last night were: Mr. and Mrs. M. J. Keller, Mr. and Mrs. W. E. Dargis, Mr. and Mrs. J. R. Glacock, Mr. and Mrs. Gus Harrison, Mr. and Mrs. M. J. Layman, Mr. and Mrs. E. P. Taylor, Mr. and Mrs. George B. Whitney, Mr. and Mrs. S. T. Gage, Mr. and Mrs. W. W. Camron, Mr. and Mrs. W. R. Davis, Percy Stuart, Will Knowles, Sam Bachelder, Joseph Warner, Mr. and Mrs. Alfred Cohen and others. Seven hundred dollars were raised on the performance.

"Wonder what Mexico will do with its ex-President if it ever gets the chance to get any?" asks the Philadelphia Inquirer. Madero would hate to say—Chattanooga Times.

## THE BUSY PEANUT

Robust daintiness of childhood, filling delicacy of the excursion boat, solace of the waiting messenger boy, temptation of the day coach, perquisite of the circus elephant, the peanut is as yet suspect to the fastidious mature digestion, even when it is salted and placed on an equality with almonds. To crabbled old age it is chiefly one of the innumerable ways in which children can make public nuisances of themselves and leave a litter behind them.

The virtues of the peanut are as yet but little known. The peanut yields the butter beloved of vegetarians, and an oil that is superior to that of cottonseed,

and but slightly inferior to that pressed from the olive. Lovers of salads take notice. The thin brown covering of the nut makes an excellent fodder, and so does the vine. The shells, reduced to ashes, furnish a good fertilizer; the roots, if left in the soil, serve the same purpose by generating nitrogen. So one sees that nothing is wasted but the aroma of the roasted nut—for nut it will always be called. Both as a money crop and as a crop for use on the farm the peanut is rapidly increasing in value. It is also, we learn, a profitable substitute for cotton in regions where the boll weevil rages.—New York Tribune.

# HEART--TRIBUNE'S PAGE FOR WOMEN--HOME

**THE** active members of the Kappa Alpha fraternity in Berkeley gave a dinner yesterday afternoon in honor of their married alumnae about the bay which was a very enjoyable affair. The fraternity house on Durant avenue was decorated in crimson and gold, the fraternity colors, and an exquisite bouquet of yellow roses formed the centerpiece for the table.

Among those who were present were Mr. and Mrs. Allen Yonge, Mr. and Mrs. R. J. Wulzen, Mr. and Mrs. R. L. Rowley, Mr. and Mrs. Robert Causey, Mr. and Mrs. Warren McBride, Mr. and Mrs. T. L. Hamlin, Mr. and Mrs. Frederick Boogie, Mr. and Mrs. John S. Shaw, Mr. and Mrs. Joseph Swan, Mr. and Mrs. Bailey McFarland.

**DINNER TOMORROW NIGHT.**

Mr. and Mrs. Harry W. Bishop will give an evening at the bridge tables tomorrow night, entertaining a score of friends at their artistic home in Alice street. The decorations will be the blue wild flowers. A Dutch cafe supper will be served after the game when the Dutch decorations will be carried out in all the appointments.

The dishes will be of the Delft blue and the table cover of the same color, embroidered in the Dutch figures.

The prizes will be articles in the Dutch silver and other innovations introduced will make the affair unusually attractive.

**VISITORS HERE.**

Mrs. Chase and Miss Ella Chase of Stockton have been guests of Mrs. Katherine Sperry of Berkeley.

Mrs. Philip Young of Boston is visiting her parents, the Benders, at their Berkeley home.

**MISS TISDALE HOSTESS.**

Miss Ruth Tisdale will give an afternoon of bridge on Wednesday in honor of Miss Helen Stevens who will leave shortly for her home in Canada, and Miss Amy Swayne, who will accompany Miss Stevenson on her homeward trip. Miss Stevenson has been visiting in the city several weeks and has been complimented at several social gatherings.

**BRIDGE TOMORROW.**

Mrs. Edward Roberts will be the honored guest tomorrow afternoon at a bridge party given by Mrs. John D. Hoyt at her Alameda home.

After an informal social hour the guests will play cards. The guests asked are Mrs. Weston Olin Smith, Mrs. Lionel Wolf, Mrs. M. H. Robbins, Mrs. J. C. Black, Mrs. D. H. Foote, Mrs. E. G. de Wald, Mrs. George Lamb, Mrs. R. Barnes and Mrs. Edward Hoffman.

**AFFAIRS IN EARLY MAY.**

Mrs. Frederick S. Samuels and her daughter, Mrs. Chas. Crowell, will give two affairs next month. On May 10 and 11 they have asked about half a hundred guests to the Crowell home in Perry street.

Mrs. Chas. Crowell and her three daughters, Edith, Hazel and Mildred, have sent out invitations for a tea on the afternoon of May 3 at their Alameda home. Nearly 200 guests, including many Oaklanders, will attend the affair.

**MASQUERADE BALL.**

Arrangements have been completed for the masquerade ball to be given by the Esos Club at Rice Institute next Wednesday evening. The club was formed a year ago for social affairs and since then many delightful affairs have been given. The masquerade ball is the first one given by the club.

Among the members are the Misses Elsie Holwell, Anita Luzzadder, Elbertson, Edward, Father Hoffman, Anna Shorpp, Mildred Atto, Florence Scott, Edith Wright, Florence Holstrom, Lillian Hulstrom, Sue Lassen, Mabel Lassen, Irene Greenwood, Ione De Crus.

**TO SUMMER HERE.**

Robert Sharon will spend the mid-summer with his parents, Mr. and Mrs. W. H. Sharon, at the family home in Piedmont. He will arrive here at the close of the college year at Yale.

**AT HILLSIDE CLUB.**

An "Evening With Tennyson" is the program planned for the last social meeting of the year, to be held this evening by the Hillside Club in its quarters in North Berkeley. The program will comprise a number of selections from Tennyson and Miss Virginia Goodsell will give a number of songs from Tennyson. A feature of the evening will be the opportunity the club will have to hear Mrs. Adeline Lett, a reader of rare charm and of unusual dramatic ability.

Mrs. Lett is an Australian by birth and spent most of her life in that country, where she studied under the best teachers. She is a decided acquisition to the local literary colony, as is also her talented husband, Mrs. Lett will give a number of readings from Tennyson's works.

**TEA IN BERKELEY.**

The tea to be given on Wednesday afternoon by Mrs. Detrich and Miss Albertine Detrich at their artistic Berkeley home will be attended by folk from all the bay cities.

Miss Detrich has been taking an active part in the social gayeties of the debutante set in San Francisco.

**LUNCHEON IN EARLY MAY.**

Mrs. Thomas Williams of San Francisco was a luncheon hostess of last week and will again be a hostess on May 3, when she will give a smart

MISS ERMA AUERBACH, a member of the younger social set. —Scharz, Photo.

luncheon in honor of Miss Charlotte Hall of this city.

**PICTURESQUE AFFAIR.**

The card party given by Mrs. George Wilhelm and her sister, Miss Bune-man, at the handsome residence of the former in Piedmont, was one of the most picturesque affairs of the past week.

Yellow and green made an effective color scheme, great bouquets of golden tulips predominating in the decorations. Some very stunning gowns were worn. Among others that were particularly handsome were those of Mrs. D. A. Proctor, Mrs. Frederick Stolz, Mrs. Wickham Havens, Mrs. Montell Taylor, Mrs. Granville Abbott, Mrs. Sam Bell Wakefield, Mrs. W. F. Williamson.

**WEDDING IN SAN FRANCISCO.**

The wedding of Miss Mabel Gregory and Dr. John Marietta, celebrated in San Francisco Saturday night, is of interest to many on this side of the bay. The Fairmont Hotel was the setting for the affair. The rooms were decorated with Easter lilies and roses, while the ceremony was performed under a canopy of flowers by Rev. William K. Guthrie.

The bridal gown of white satin was embroidered in point de Venise, which lace was also used to edge the veil, which was worn in the new cap mode so becoming to many.

Mrs. Homer Boushey, sister of the bride, as matron of honor wore a mauve colored tulle over pink satin and carried pink roses.

The couple will spend the honeymoon in the Grand Canyon and will make their home temporarily in Arizona.

**ETUDE CLUB TODAY.**

The Etude Club held its last session today when a program of music was given and Mrs. Ethel Hunt Safford, the newly elected president, took her office. Those who will be associated with her on the board of directors for the coming year are: Mrs. Aylwin

**HER SOUL IS FREE TO WANDER**

CHICAGO.—Solomon Sturges was granted a divorce from Mrs. Mary d'Estes Sturges, whose "soul-freeing problem drama" created a stir in North Shore circles when presented for a performance at Ravina park, and whose most recent devotion to the Isadora Duncan school of dancing caused much comment among friends of the family.

The divorce was granted by Judge Tuthill in the circuit court. Mrs. Sturges, who has lived in Paris for the last three years, was not represented by counsel. No provision for alimony was made in the decree.

The son, Preston, is living with his mother. Sturges is a member of the brokerage firm of Solomon Sturges & Co., and lives at No. 20 East Goethe street. He is a member of the Onwentsia, Chicago and University clubs.

The first definite parting of the ways between Mr. and Mrs. Sturges came in the summer of 1903. They had been married in Memphis seven years before, and Mrs. Sturges was prominent in the young set in Chicago for several years after she came here. They lived at the Chicago Beach Hotel.

Only a foolish woman angles for compliments. The wise one depends more on curves.

**Go Ahead, Beat Wifey; Jury Says You Have Right**

ST. LOUIS.—After being out almost twenty-four hours, a jury in Judge Vandewater's court, in East St. Louis, decided that a husband has a right to spank his wife. The jury therefore refused to give a divorce to Mrs. Hannah Rebecca Howell. Howell testified that at 2 o'clock a. m. July 5, last, he got up and gave his wife a good spanking because she had kept him awake four hours talking to him. He then dressed and went to a neighbor's house and told about it. "He called me red head when he wanted to make me mad," said Mrs. Howell, whose auburn locks attracted the eyes of many spectators.

## WOMEN IN THE NEWS

### HEROINE OF COLLEGE ROMANCE ASKS FOR DIVORCE

Helen Roche Glass Abandons Hope of Winning Back Harvard Man.

"Good!" Explains Father of the Gilded Youth When He Hears News.

**P**ORTLAND, Ore., April 24.—Mrs. Helen Roche Glass, heroine of the shortest-lived college romance on record, has given up all hope of reconciliation with her husband, Graham Glass, Jr., of this city, and has fulfilled her threat to seek the divorce court. Mrs. Glass' lawyer has just filed an action in the Middlesex county, Mass., courts, praying for a divorce on grounds of desertion. The young woman also asks the court to order the Harvard student husband to pay alimony.

"Good," was the only comment of Graham Glass, Sr., the rich father of the fickle young Harvard bridegroom, when told at his Portland home of the latest developments. Furthermore, Glass refused to discuss the case. According to Boston advices, young Mrs. Glass was asked whether, as intimated, she intended to seek financial salvage for her wounded heart by an alienation of affections action against the elder Glass, but declined to reply.

"My friends are standing by me even if my husband is not," she declared. "I had hoped that Graham would come back to me and that we would love each other as much as before, but the boy seems only to think of his father's wishes."

It is stated here that attorneys in the East will handle the matter for the young husband, who is now on a vacation from his school work at Harvard.

### Foils Kidnap

SEATTLE, Wash., April 24.—Left alone to the care of "Billy" Chase, the two-year-old son of Dr. W. D. Chase, a wealthy mine operator of Kibuk, Alaska, a mile north of the town of Blanche, Monmouth, an Esquimaux girl, aged 19, for years in the service of the Chase family, foiled the desperate efforts of an unidentified Alaskan Indian to kidnap the child in the fashionable Rialto Heights residence district.

Mrs. Chase was down town shopping. For days, so the neighborhood children said, an Indian, dressed in modern attire had watched the child in the spot for some time. The Indian was spotted in a nearby park Saturday afternoon, alone in the house, answered the door bell. The Indian forced the door and demanded the child.

The husky little Esquimaux maid, full of the fighting spirit of the North, grabbed the intruder, shoved him through the door and then bolted the latch. She quickly summoned help, and a motor-cycle policeman came to the spot and took the criminal. His object was probably ransom.

### She Will Be Queen

SANTA ROSA, April 24.—Miss May McMeans, the daughter of Professor and Mrs. Alexander C. McMeans, has been chosen queen of the Santa Rosa May carnival, to be held here on May 4, 5 and 6. The young lady elected to the honor is one of the most beautiful queens that have ever reigned over a floral festival in the City of Roses. Miss McMeans is absent from Santa Rosa on vacation. She will return at once and begin the preparations for assuming her position at the carnival. Her maids have not yet been chosen.

Queen Lillian, the festive ruler of the juvenile carnival, will be crowned on Friday morning, and will make a delightful little sovereign for the juvenile section, which she will occupy the entire day on Friday with a floral parade and baby show.

### WHERE YOU CAN HIRE MOTHER-IN-LAW

LONDON.—In Marseilles the hire of a mother-in-law for a few hours is quoted at 1 shilling 8 pence, which seems quite cheap. The parents of one of a future happy pair were separated. When asked to the wedding to give her consent, the future mother-in-law said: "I will go if a carriage is sent to fetch me; if not I will stay at home." The carriage was promised, but the day and the hour came and the carriage did not, and the future mother-in-law stayed at home.

"Very well," said the bridegroom, when he saw that the mother-in-law was not turning up. "I will find another mother-in-law." So he went out into the street and found one for 1 shilling 8 pence. She came on the wedding and duly gave away her "daughter," whom she had never in her life seen before and the bridegroom and bride were made one.

But they let themselves in for more than they bargained for. A complaint had been lodged and the bride, bridegroom and witnesses are liable to severe penalties for procuring, aiding and abetting, impersonation, forgery in a public deed, and other crimes, while it seems likely that the marriage in French law is null and void, the consent of one of the parents having been given by a sham

### ADVERTISES FOR HEIRESS

CHICAGO.—Ritter Patru von Borcia, who calls himself Duke of Ropetz, Austria, makes cane chairs for a living, but he has a lot of papers with enormous seals to bear out his story of noble lineage. He is in America to seek a wife and fortune, and advertise in the Sunday papers that he would stand at the foot of Grant's monument in Lincoln Park in the afternoon, wearing a red rose. He asked heiresses to size him up and make his acquaintance.

A Russian, styling himself the Grand Duke Sinia Romanoff of Russia, kinsman of the Czar, is outraged at the Austrian's style of courting and has challenged him to a duel. The challenge was issued from his apartment at the La Salle Hotel. "Think of a duke parading

## She Puts Him in Cold Storage

### EMMA EAMES TO RETURN TO STAGE, DESPITE FAREWELL

MME. EMMA EAMES, who is to return to the American stage.

(By CHARLES HENRY MELTZER.)

PARIS, April 24.—On excellent authority I hear that notwithstanding her retirement from the Metropolitan Opera House, two years ago, which was almost unnoticed in the excitement caused by Marcella Sembrich's farewell, Emma Eames may return to the American opera house next season. She is now negotiating with Henry Russell for a series of appearances at the Boston Opera House, which would almost inevitably imply that she would also sing again at the Metropolitan.

Among the roles in which she may be heard is that of Desdemona, which suits her admirably.

Since the settlement of the difficulties and worries resulting from her romantic attachment to Mr. Gogorza, who is now in Paris, Mme. Eames has found new interest in her art. A friend who heard her recently assures me that she is now in splendid voice. According to present arrangements, the marriage of Mme. Eames and Signor Gogorza will take place in July.

Next season Russell expects to introduce Mme. Koutnetzoff, Russian lyric singer, to America. She will probably appear in the Boston and Metropolitan operas. She has successfully at the Opera Comique, notably in "La Boheme," and at Covent Garden. She is now a member of the Paris opera house.

Jeannette, manager of the Montreal opera house, is in Paris making arrangements for his next Canadian season. He is an ardent advocate of the eventual establishment of opera in English and hopes within a year or so to give performances regularly in both the Canadian vernaculars. His immediate ambition is to give Montreal an equivalent of the Paris Opera Comique.

Jeannette has already engaged two well-known tenors attached to that theater, Michael Darial and Paul Sterlin; besides Edmond Clement and Georges Bonard, a favorite Opera Comique baritone. He has also secured the distinguished

The girls have appointed an indignation committee to set them right before the public.

### Connecticut Girl Makes Sure John Will Stay Sober

HARTFORD, Conn.—Miss Cecilia B. Wilson of the Co-operative Nurses' Club of this city has put her sweetheart, John White, in a penal institution for safe-keeping while she goes to Bermuda on a three weeks' vacation. She expects to sail from New York Wednesday.

"John is a goose, and so she had to apply for cold storage methods for his proper preservation," explained one of the nurse's friends.

Miss Wilson is Scotch. So is John White. He is a shoe manufacturer at Brockton, Mass. The two have been engaged for fifteen years. When she went to Brockton to bid him goodbye he was so mellow he hardly knew her and he merely nodded and smiled when she said she was going to Bermuda. She looked at him tearfully and then she hurried to the Lynn, Mass., Police Court and asked Judge Fisk to commit White to some nice, safe public institution where he could get into a proper state of sobriety by the time she returned from Bermuda.

### COMMITTED TO INSTITUTION.

The judge committed White to the Massachusetts State Farm at Bridgewater. After it was all over and she had got back to Hartford Miss Wilson found the Bridgewater place in a penal institution. She imagined it was a sanitarium.

Miss Wilson was tearful when seen by a reporter.

"Oh, dear me!" she exclaimed. "Here I've gone and put John away in a dreadful place. All I wanted to do was to stow him somewhere for safekeeping until I got back from Bermuda."

John, she said, had been on the water wagon for seven months. His brother, a Canadian inspector of mines, drove the vehicle, she added.

"Of course," the little woman continued, "the brother doesn't deserve a whole lot of credit for sitting on that wagon, because you know he never had any temptation to drink. It's different with John. Scotch highballs look so good to him, don't you know? But they're horrid. He does try so hard to be good, and he'd be all right when I went to bid him goodbye, only he had fallen in with some old cronies from Halifax. They wet him down a lot."

### RESCUES MAN ATTACKED BY AN EAGLE

PUEBLO, Colo.—In a battle with a captive bald eagle in the back yard of his home, 904 Ash street, H. T. Walby was badly injured.

The eagle was given to Walby a few days ago by William Porter, a Beulah rancher. Walby tied the eagle in his yard with a rope. He decided to loosen the knot on the eagle's leg and while doing this the bird flew at him and sank its talons deep in his face, securing a strong hold on both cheeks.

Walby fought the eagle desperately for several minutes, when Miss Mabel Orin, living next door, came to the rescue. She struck the bird on the head with a broom handle and forced it to loosen its hold.

Walby's face was badly torn and a physician was summoned.

Walby's son, when he arrived home that evening, found the bird loose.

### CHILDREN TO DANCE AROUND THE MAY-POLE

The children's fête to be given in De Fremery Park playground next Saturday afternoon will be one of the most attractive events of the year. The games and dances which have been arranged for the day by the directors of the grounds and superintendent of playgrounds, George B. Dickie, will amuse Oakland's younger population.

The program will open with the crowning of the queen and the May-pole dance and the festivities will culminate with games. It is expected that about 200 children will appear in the May-pole dance, for which elaborate preparations are being made by the committee.

### SENIOR TUG RIDE TO BE SEASON'S SOCIAL AFFAIR

One of the exclusive affairs scheduled on social calendar of the low senior class of the Oakland high school is the tug ride which will be given May 21 to El Campo. About 200 bids have been issued and the students are looking forward to the event with interest.

The debate between the Oakland high and the Berkeley high schools, which will occur May 5 in Chabot hall, seventh and Grove streets promises to be one of the most exciting contests held in years.

# MEXICAN ARMISTICE MAY BE FURTHER EXTENDED

## INDICATIONS ARE ALL FOR PEACE

American Soldiers of Fortune Prepare to Leave the Rebel Ranks.

Dr. Gomez Leaves for Juarez to Confer With General Madero.

EL PASO, April 24.—It was learned today that if there should be need of a longer period than five days in which to conclude peace the armistice signed yesterday between General Navarro of the federal forces and General Madero will be extended from next Friday, when the period agreed upon expires at noon. Negotiations for peace had extended today just far enough to put each side in possession of the outline of the other's demands.

General Madero has known and secretly guarded for two weeks information as to what the government will grant. He telegraphed Mexico City yesterday the nature of his basic demands. Following this a long telegram was received from the Mexican capital, but no indication of its contents leaked out. The negotiations were at this stage today when they were resumed.

### PROGRESS IS SLOW.

Yesterday's experience demonstrated that negotiations by telegraph, with most of the lines in Mexico out of commission, are too slow and tedious, especially when hundreds of words of code must be used. For this reason both parties wish to appoint envoys with full power to act. The naming of the envoys, the selection of a meeting place and traveling to it, it is thought, will require more than the four days remaining of the truce, and hence the determination to extend its duration if necessary.

A member of the mission describes the negotiations as being in a very delicate stage, where an undiplomatic slip might spoil everything. "However," he added, "we have gone so far now I am certain that no matter what hitches may occur, a basis of peace will be reached."

### TOO TAME FOR AMERICANS.

Nearly all of the Americans with Madero, feeling that the fighting is over, are preparing to quit the ranks of the rebels. Many Mexicans, of the same opinion, have already made tentative applications for work in this country. Scores of the rebels up to this time have never been out of their native mountains. They gaze with awe at the tall buildings of El Paso, and are ambitious to secure work on this side of the border. There is plenty of it for them in the railroad construction camps.

### REYES TO RETURN.

The Associated Press dispatch from Paris stating that General Bernardo Reyes, idol of the Mexican army, is to return to his own country to assist in restoring tranquility, was read in the insurgent camp and among the federalists of Juarez with the greatest interest. Reyes, it is said, does not desire the presidency and is regarded as the most loyal among President Diaz's officers. His influence with the army is greater than that of any other man. The soldiers love him, for he has always stood their friend.

Among the people a promise from General Reyes is as good as an accomplishment. To him, it is believed, will be entrusted the holding of state and municipal elections.

## Insurrectos Make Attack Upon the City of Rosario

WASHINGTON, April 24.—The Mexican government has sent the gunboat General Guerrero to Acapulco to protect Americans in that city in the event of an attack by insurrectos. Acapulco is not included in the ceasefire. David E. Thompson, formerly American ambassador to Mexico, is among the Americans there.

Insurrecto activity at other points along the Mexican Pacific coast was reported today by Colonel Alger at Mazatlan, who fears an attack on that important port. The revolutionists already have attacked the city of Rosario, which is not far distant.

It is generally believed here, however, that as soon as the news of the Madero armistice spreads throughout Mexico that there will be a general subsidence of fighting.

## Dr. Gomez Will Take Part in the Peace Conference Program

WASHINGTON, April 24.—Dr. Vasquez Gomez, head of the confidential agency of the Mexican revolutionists here, received a request today from General Francisco I. Madero, Jr., to come immediately to Juarez to participate in the peace negotiations. Gomez will start in two or three days.

## American Surgeon With Insurrectos Has Blood Poisoning

EL PASO, April 24.—Dr. J. L. Wilson, chief surgeon of the insurrecto army, is seriously ill in the rebel camp, threatened with blood poisoning in the arm as the result of infection from having operated on a sick man.

## CELEBRATE HALF CENTURY AS FIGHTERS BENDEL AND OSTERHAUS HOLD REUNION

Major General P. J. Osterhaus, U. S. A., retired, and Colonel Herman Bendel, U. S. A., retired, have been lifelong friends. At Colonel Bendel's home on Alice street yesterday Rear Admiral Hugo Osterhaus, U. S. N., was a guest of honor at the fiftieth anniversary of the issuance of a major's commission to his father, General Osterhaus, and a captain's commission to Colonel Bendel.

## Commissions Issued 50 Years Ago; Served in the War

Colonel Hermann Bendel and Rear-Admiral Hugo Osterhaus, commandant of the Mare Island navy yard, celebrated at the beautiful Bendel home on Alice street, between Third and Fourth streets, yesterday the fiftieth anniversary of the issuance of the commissions to the admiral's father, P. J. Osterhaus, and to Hermann Bendel, the major and captain respectively in the Second Missouri infantry regiment at St. Louis, April 23, 1861. Captain Bendel was then twenty-four years old and Major Osterhaus his senior by ten years.

Both officers had received a thorough military training in the land of their nativity—Germany, and the proffer of their services to the federal government at the opening of the war of the rebellion and heartily welcomed. Both served throughout the war. Major Osterhaus is now eighty-four years of age and for many years has been on the retired list as major-general of the United States army. He is, moreover, the sole surviving army corps commander of the Civil war.

**FRIENDSHIP IS WARM.**

From the time that Major Osterhaus and Captain Bendel were commissioned as officers of the Second Missouri infantry, a warm personal friendship has existed between them and their respective families. The bond was strengthened in later years by the fact that Major-General Osterhaus' son, now the senior Rear-Admiral of the United States navy, was stationed at Manila at the time that the regiment in which Colonel Bendel's son, Stockman, holds a first

lieutenancy was first quartered there. The regiment is, for the second time, now serving in the Philippines.

### DOUBLE REUNION.

The celebration of the fiftieth anniversary of the commissioning of Major P. C. Osterhaus and Captain Hermann Bendel in the Second Missouri infantry, U. S. A., on April 23, 1861, took the form of a simple double family reunion, Admiral Bendel and Major Osterhaus coming to it from Mare Island navy yard to represent Major-General Osterhaus, whose advanced age and remote residence in the East, constituted insurmountable barriers to his attendance, and Mr. and Mrs. Fred Baker, the son-in-law and daughter of Colonel and Mrs. Bendel, coming from San Anselmo, Marin county, to attend the quiet but interesting function. The party broke up after a particularly enjoyable day, at 4 p. m., to enable Admiral and Mrs. Osterhaus to return to Mare Island before nightfall.

### TO COMMAND FLEET.

As the senior rear-admiral of the U. S. navy, Admiral Osterhaus will take command of the Atlantic fleet May 15. The record of the Osterhaus in the service of the United States is unique, nothing in the annals of the navy equaling it; namely the elder attaining the highest regular rank in the army—that of major-general, while the younger has reached the highest regular rank in the navy, that of rear-admiral, and that both are living to mutually enjoy each other's honors.

## ARMED PROWLERS IDENTIFIED THUGS

## Pair Arrested on Waterfront Early Today Accused by Restaurant Man.

SAN FRANCISCO, April 24.—Intercepted prowling about the streets in the neighborhood of the waterfront at 2 o'clock this morning, Joseph Stark, a moulder, and Bernard Levine, a plumber, were charged by Policemen O'Donnell and Mahoney with carrying concealed weapons. Each of the pair had a heavy revolver in his pocket, fully loaded; and as they resembled in a general way the description of the two hold-up men who have been operating in the Harbor district, they were taken to the restaurant of John Lindquist, 9 Jackson street, which has been twice robbed recently. The proprietor immediately identified them and accused them of being the men responsible for stealing nearly \$100 from him on the two occasions of their visit.

They were promptly charged with robbery at the Harbor police station and later lodged in the tanks at the city prison.

This morning they came up before Police Judge Shortall and their cases were continued.

## MILITARY RULES WITH IRON HAND

## Troops at Muscatine Act as the Curfew Officers for Old and Young.

MUSCATINE, Ia., April 24.—Military rule went into effect in Muscatine today, by order of Major George W. Ball, in charge of the State troops sent to Muscatine to preserve order during the local labor troubles. No public meetings of any sort are to be permitted after dark. Any person on the street after 8 o'clock in the evening will be compelled to state his business to the military patrols.

Any one on the street after 11 o'clock will be escorted to his or her home and the name and address taken. A repetition of this will result in the arrest of the offender.

All social and religious meetings of every description will of a necessity be abandoned as long as the troops remain in Muscatine.

Despite the presence of soldiers and the protection afforded to all, few additional workers returned to the factories this morning. Yesterday's button workers' picnic at Weed park passed without incident. Large crowds were present, but there was no disorder. Clarence Darrow of Chicago, announced as the speaker, was unable to come. The speeches made by union leaders were taken down in shorthand by a representative of the military authorities.

## PURSE OF \$1500 GIFT TO PASTOR

## The Rev. Maurice D. Slattery Honored on Anniversary of Ordination.

SAN FRANCISCO, April 24.—Rev. Maurice D. Slattery, pastor of St. Agnes' church, was the guest of honor at a luncheon in St. Agnes' hall, 1514 Page street, in commemoration of the fortieth anniversary of his ordination to the priesthood. Catholic clergy from all over the city were present.

Rev. Father Slattery was presented with a purse containing \$1500 in gold coin by the parishioners, the presentation speech being made by Daniel J. O'Leary. The children of the Sunday school also presented the popular pastor with a handsome bouquet.

Following the morning mass celebrated at St. Agnes' church yesterday morning, the priests, including Archbishop Riordan and Bishop O'Connell, were guests at a dinner at the parish residence.

Rev. Father Moran preached the morning sermon. Rev. Father Slattery was celebrated, with Rev. T. P. Haverin as deacon and Rev. John Byrne sub-deacon. Rev. Richard Collins was master of ceremonies.

## BLAME FAST CONFESSES TO WOMAN KILLED

Passengers on Fresno Local Declare Train Went at Excessive Speed.

Score Are Bruised and Cut When Cars Go Into the Ditch.

LOS ANGELES, April 24.—Officials of the Southern Pacific have not yet fixed the blame for the wreck of the Fresno local train at Vincent, a short distance north of Soledad Canyon, last night, in which a score of passengers were cut and bruised and two trainmen badly hurt.

Stories of the passengers indicated that excessive speed caused the wreck but at the offices of the railroad here it was said the train was making only thirty-five miles an hour when the tender of the second engine left the rails on a curve and rolled down a 25-foot embankment.

### ESCAPE THROUGH WINDOWS.

The smoker turned upon its side and slid half way down the bank. None of the passengers in this car were badly hurt, all of them climbing out of the windows. Three hundred feet of the track was torn up, but none of the other cars left the road.

The most seriously hurt were M. Y. Cavanaugh, mail clerk living in this city, and a negro dining car employee who was scalded by hot water. The injured were brought to this city and after having numerous cuts and bruises dressed at hospitals went to their homes. Traffic was resumed today.

## PRESIDENT PLEADS FOR CENTRAL CHURCH

Calls on Unitarians to Establish an Institution in Washington.

WASHINGTON, April 24.—A plea to all Unitarians to provide in Washington a "principal church" to correspond with the cathedrals of other denominations was made by President Taft yesterday in the regular service in all Souls Unitarian church, of which he is an attendant.

In his address he referred to the discussion of his religious faith in his presidential campaign.

"Anyone who has run for office," said he, "and has received telegrams from various parts of the country saying, 'It is reported that you are a Unitarian,' will understand the necessity for showing what Unitarianism is, and it is progressive Christianity, illustrating and carrying forward as the supreme ideal that Fatherhood of God and Brotherhood of Man."

### TIME TO OPEN POCKETS.

"Now I believe this is a time for us to open our pockets and if we haven't the money in them, to assume some obligations ahead with a view to making this monument to liberal religion a suitable one in the capital of our nation. Other churches by reason of organization, have cathedrals, the church seat of the hierarchy."

"We have no bishops but we have clergymen who, if we did have bishops, would be worthy of filling such a place, and it is entirely fitting therefore, that we should have here in the capital of the nation a principal church that corresponds to the cathedrals in other churches."

### TEMPORARY RESIDENT.

"Though a temporary resident among you and one who will only have the privilege of worshipping in this church for a time, I venture to urge that we all, residents or non-residents, assume a burden and sacrifice something substantial that this home for preaching broad, liberal and tolerant Christianity, shall be worthy of the cause."

The President referred to himself as only a layman and divided such an audience as he was addressing into three classes—Washington Unitarians, who look forward to worshipping in the Unitarian church all their lives; temporary residents like himself; and "that class not visible, who answer the description of the late Senator Hoar of Massachusetts, a member and attendant of this church, when he asked a brother sear, 'What is your church that you don't go to?'"

He urged all these classes to add the church, saying that Washington is growing to be more and more the center of thought in this country, "typical of the whole country; a city beautiful, where may well be established a nucleus for liberal religious thought and education—a church typifying broad, liberal and tolerant Christianity."

## PHOTOGRAPH JAPANESE FORTS AND ARE JAILED

TOKIO, April 24.—Two Californians named Richardson and Fletcher were arrested on Friday photographing the deck of a Japanese battleship while entering port.

The accused men insisted that they had no ulterior motive, but the fact that both were poorly dressed and possessed only \$8 between them helped to strengthen a suspicion against them. The men are still being detained.

## ENGINEER TELLS STRANGER ON THE STREET THAT HE KILLED WIFE IN SACRAMENTO.

Police Believe He Is Suffering From Hallucination and Investigate Case.

SAN FRANCISCO, April 24.—Overheard by Detectives Purcell and De La Guerra at Haigh and Stanyan streets at 9 o'clock this morning, as he discussed a murder, Lawrence E. Whitney, a locomotive engineer, 38 years old, was taken into custody and has confessed to a crime alleged to have been committed in Sacramento.

Whether the man's story is true or whether he is suffering from a hallucination will be determined by the officers after they have heard from the chief of police of Sacramento, and have made further local inquiry.

Whitney confessed to the officers that he had murdered his wife.

### KILLS HER WITH GUN.

"My home is in Sacramento, and I live at 163 Curroto street," he explained. "Last night at 11 o'clock I returned to my home and found my wife in company with another man. I took a gun and fired three shots at her, killing her instantly. I then came to this city, and this morning I went to the beach and threw the revolver in the ocean."

Whitney was telling of the deed to a stranger when the officers happened upon him. They are endeavoring to locate a sister here in quest of further information.

### NOT AN ENGINEER.

SACRAMENTO, April 24.—Officials at the headquarters of the Southern Pacific and Western Pacific declare there is no engineer employed on this division of the name or description of the man who surrendered himself to the San Francisco police, declaring he had murdered his wife in Sacramento.

There is no Corroto street in the capital city or any of its suburbs.

## DESPOUDENT MAN KILLS HIMSELF

S. Kuene, Former Oakland Merchant, Aged and Indigent, Blows Out Gas.

Leaving a short note scribbled in German saying that he was tired of life and bidding goodbye to his family, S. Kuene, 60 years old, and formerly a merchant of this city, committed suicide by inhaling illuminating gas in a room at 914 Myrtle street yesterday. His act is ascribed to business reverses and estrangement from his wife.

Kuene, who had been living by himself in the room on a porch, yesterday took his own life since he failed in business and left his home at Elmhurst, had been in ill health and very despondent for several days, according to other lodgers in the house. Late yesterday afternoon the odor of gas was detected, and finally traced to Kuene's room. The aged man was found stretched on his bed and life was already extinct. The body was removed to the morgue. An inquest will be held Wednesday afternoon.

The man was formerly in partnership with his son Robert Kuene as proprietors of a small bar and fixture factory at Second and Market streets in this city. In some months ago, and following the failure there was an estrangement between him and his wife. He left the little home in Elmhurst and came to this city, where he died in Oakland. He was a native of Germany.

## HORSE RUNS AWAY INJURING WOMAN

Mrs. S. S. Matthews Seriously Hurt While Riding on Milk Wagon.

Mrs. Samuel S. Matthews, living at 351 Twenty-ninth street, was seriously injured about the head and badly bruised by being thrown from a buggy in which she was riding when the horse ran away this morning.

Mrs. Matthews is the wife of a dairyman and was riding in a milk wagon when the horse became badly frightened and bolted. A boy was driving the wagon and when on Thirtieth street just off Broadway, the driver was unable to control the animal, the wagon was upset, throwing the woman out. She struck against a telegraph pole. She was removed to the Providence hospital, where the doctors say she is seriously though not fatally injured. The boy escaped harm.

## REV. MEARS RETURNS FROM VISIT TO RENO

ALAMEDA, April 24.—Rev. C. L. Mears of the First Congregational church has returned from Reno, where he visited for four days. Rev. Mears was the former pastor of the First Congregational church of Reno. Rev. Mears delivered a lecture before his former congregation, the topic of which was, "From Reno to the Yosemite." The Reno divines entertained the local pastor lavishly during his short stay in the Nevada city.

## WOMAN KILLED IN MOTOR CRASH

Gasoline Railroad Car Leaves the Track and Turns Turtle.

Mrs. Fred Elliott Meets Death; Three Others Are Hurt.

SAN DIEGO, April 24.—While going at a fairly good speed at 8 o'clock this morning the gasoline motor car operating between Imperial Beach and San Diego left the track and overturned about fifty feet from a hotel in South San Diego, killing one woman, perhaps fatally injuring another and slightly injured two men.

The dead woman is Mrs. Fred Elliott, wife of the first machinist's mate of the submarine Pike.

Fatally injured is Mrs. William Money, a Colorado tourist.

William Money and William Cox, the latter engineer of the motor car, received slight bruises.

The dead and injured were removed to a hotel where doctors were called to attend Mrs. Money. She may die.

## MANY PICNICKERS TO WEND WAY TO DAVIS

University Farm Will Be Mecca for the Merry-makers on Saturday, May 6.

DAVIS, April 24.—Saturday, May 6, has been set as the date for the third annual picnic at the University farm at Davis. The large attendance and good times which accompanied the two former picnics have led Professor Anderson, superintendent of the University farm, to make this an annual event. Last year about 2500 people were present and all declared that the picnic was one of the most enjoyable affairs of the kind ever held in northern California.

It would be extremely difficult, if at all possible, to find a more convenient and suitable location for a picnic. The entire 700 acres of the farm is thrown open to the public on that day. Lunch is served, and there will be a cream and strawberry social, and other amusements. The picnic is free of charge, but the University farm is open to the public on that day. The picnic is free of charge, but the University farm is open to the public on that day.

As usual, there will be a program of speaking which will take place at 10:45 a. m. in the stock judging pavilion. Professor E. J. Wickson, dean of the college of agriculture, will preside and the other speakers will be President Ide Wheeler of the university and President Allison Ware of the Chico normal school.

The railroads will put in effect an open rate of one and one-third fare for the round trip. These special tickets will be on sale May 3 and 6, good for returning to and including Monday, May 6, and can be purchased anywhere within the territory bounded by Fresno and Salinas on the south, Redding on the north and Colfax on the east.

### GOOD TIME IN STORE.

There is always a good time in store for those who attend the university farm picnic. Everything is done by the management of the farm which can be done to add to the enjoyment of the occasion. There is no more pleasant and profitable way to spend one or two days than to go to this picnic.

Everyone in any way interested in agricultural matters will be repaid many times over, for visiting the farm. It is, through liberal appropriations by the state, a well equipped building and modern equipment. It is the purpose of the management to bring about one of the most up-to-date university farms in the United States. Although it is still young, splendid progress has been made towards that end.

**EAST DOES NOT ATTRACT.**

Messrs. Irving and Milton Jonas, of the Hub, returned Sunday evening on the Overland limited by way of the Southern Pacific route, after an extended business trip through important eastern cities.

These gentlemen were eminently successful in a large buying and contracting expedition that was most eventful for the Hub.

The strike among large clothing manufacturers in Chicago has changed the distribution departments of these factories and the merchant financially able to furnish immediate cash with orders, as the Hub of Oakland is always able to do, makes their buyer a much sought after person.

No city or any attraction in the east has anything to offer these loyal local merchants, who are glad to be in the harness again at home.

## Gold Dust

Does more than clean

Your pots, pans, kettles, dishes, knives, and other utensils need more than mere cleaning. Soap and water simply clean the surface.

GOLD DUST not only cleanses but sterilizes—it drives out every bit of dirt or hidden germs which are bound to lurk in oft-used utensils. It will leave your kitchen things not only clean, but sanitariously safe.

GOLD DUST will enable you to do your work more quickly, save your strength, and give you better results than soap or any other cleanser.

Do not use Soap. Naphthalene. Ammonia. Kerosene. With Gold Dust. Gold Dust has all desirable cleaning qualities in a perfectly harmless and lasting form.

"Let the GOLD DUST TWINS do your work!"

## "PIGS IS PIGS," EVEN IN THE CAPITAL CITY

SACRAMENTO, April 24.—The famous story of "Pigs Is Pigs" was staged at the depot offices of the Wells-Fargo company with Al Dillon, the assistant superintendent, in the role of agent. He received a few days ago a large, well-bred sow, shipped by express from Illinois to Klamath Falls. While at the depot awaiting change of trains the sow gave birth to a litter of six pigs. To accommodate them Dillon had to build a larger crate. For fear the litter might further multiply while on his hands he shipped them on to Klamath Falls, where raters for seven pigs must be paid by the consignee.

## GROWS HAIR ON BALD HEADS

Resorcin is one of the latest and most effective germ-killers discovered by science, and in connection with Beta Naphthol, also a powerful antiseptic, a combination is formed which destroys the germs, which rob the hair of its nutriment, and thus creates a clean and healthy condition of the scalp, which prevents the development of new germs.

Resorcin is a well-known agent for restoring the hair to its natural color, where the loss of color has been due to disease. Yet it is not a coloring matter or dye.

## 'THE STILL VOICE' RELATES VIVID TRUTHS AT ORPHEUM

GRACE CAMERON, who has returned to Oakland Orpheum.

## Tabloid's Sermon Old as Bible Itself; Grace Cameron Returns for Another Week

**AT THE ORPHEUM THIS WEEK.**  
"The Still Voice" tells dramatically the story of Man, Mammon and the Grimace, without preaching too much about them. Grace Cameron returns with her joy and her unadorned non-sense. Dick, some French, mostly dog, displays his mathematical ability. The Five Satsudais bring gymnastic stunts and K. Mankid from the land of the Rising Sun. Minerva will awaken twice a day for the rest of the week. Mlle. Bianci Froelich smiles.

(By LEO LEVY.)

"The Still Voice," as played by Mr. and Mrs. Sidney Drew at the Oakland Orpheum is a sermon as old as the Bible, told in a way that is new as vaudeville tabloids, at least. It isn't as preachy as you might think after a glance at the text printed on the program and you are perfectly safe in dodging church and attending the Orpheum of a Sunday night.

Mrs. Drew, whose pen dripped "The Still Voice," tells of one Matthew Steele who, in order to break off a love affair between his daughter and Arthur Ferriss, sets about to ruin the young man's father. Gold is the ultimate to Matthew Steele and he figures it out to a certainty that with money gone Ferriss, Jr., will be out of mind and running with Marjorie. The millionaire has accomplished his purpose, and the extras are out with the details of the financial catastrophe when the curtain goes up.

Steele's sister pleads with him to show mercy, to throw the gold dust from his eyes and to see how fruitless are his efforts to lock love in a bank's vault. Steele is steel, and refuses to be melted even by his daughter's tears.

### "THE STILL VOICE."

Then speaks "The Still Voice" warning the of the god Mammon, of laboring "for the wind." To Steele "The Still Voice" is of man and he derides those who do not hear and drive its owner away from his winery. Young Ferriss comes, ignorant of the cause of his father's downfall. He begs Steele to save his father, and is cursed for his pains. "The Still Voice" sounds its warning.

The end comes in a hurry. Ferriss, Sr., takes the easiest way out and

ends his life. Steele is stricken and sinks to the floor with his eyes fastened on a picture of "The Still Voice" hanging over his fireplace. Arthur Ferriss, maddened by tragedy, rushes in to kill the man who sped the bullet into his father's body. He is stayed by "The Still Voice" and its terrible, "He is Mine."

### PLAY IS JOYLESS.

The tabloid isn't a pretty thing, but it does its work. There's scarcely a joyous line in its dialogue, and it is heavy and oppressive, but you are forced to listen just the same. A new nail is sometimes driven home by a rusty hammer.

Sidney Drew's portrayal of Matthew Steele is commendable as a piece of character work. Mrs. Drew is Bertha Steele, Pearl Cook the daughter and S. Rankin Drew young Ferriss. Dr. Fletcher Hancock the secretary and Bloker the servant, are played by Frederick Quimby, George Roberts and Gilbert Woodland, respectively.

### GRACE CAMERON RETURNS.

Grace Cameron returned for another week yesterday and was greeted with a deal of joy by Orpheum goers who didn't get enough of her brand of nonsense when she was here last. Much that she does is new, giving further proof of her versatility. "Heaven Will Protect a Working Girl" remains her best argument for popularity.

In Dick, the Penman, we have another canine prodigy. Dick is a very Frenchy poodle with a haircut that would make any dog envious. He adds, subtracts and multiplies, draws a triangle, a square and a circle with brush and ink; does all of these without a hitch, and comes out second best on this week's program in this struggle for applause.

The Five Satsudais, gymnasts and equilibrists, with K. Mankid, Japanese comedian, round out the program. Of the holdovers, Claude Gillingwater and his company in "The Awakening of Minerva," claim the lion's share of appreciation. Mlle. Bianci Froelich, all smiles this week, whirls through her colorful dances. Cook, Harvey and Dunley remain in their abbreviated minstrel show. The Four Konez Brothers are to display their skill with hoop and diabolo for another seven days.

## FIRE-FIGHTING IS TAUGHT REDMAN

Carlisle System of Protection Is Adopted in All Indian Schools.

CARLISLE, Pa., April 24.—The Indian bureau at Washington has adopted for use in all the Indian schools the system of fire protection which originated at the Carlisle institution. The Carlisle school fire department numbers seventy grown male pupils, and the apparatus consists of a hose carriage, hand engine and pump and complete set of ladders and salvage apparatus.

To aid the firemen, the 1200 Indian boys and girls at Carlisle are especially disciplined. The fire alarms are sounded by certain detonations from the fire department buildings, indicating in which of the twenty-five school buildings a fire has occurred and immediately all students and employees proceed to their quarters.

Fire drills of the entire school are held several times weekly.

### "SAN FRANCISCO BED" DEDICATED IN GOTHAM

DENVER, April 24.—The Jewish Consumptive Relief society dedicated the "San Francisco bed" endowed by the Jewish community, yesterday. A telegram from Mayor P. H. McCarthy of San Francisco was read.

Addresses were made by Dr. Edward Jackson, formerly of San Francisco; former Governor C. S. Thomas and Rabbi I. S. Friedman.

## Time for Biscuit and Berries

When your think of strawberries or other fresh fruit, think of

## SHREDDED WHEAT BISCUIT

the cleanest, purest, most nutritious of all the cereal foods—combines most naturally with all kinds of acid fruits—better than the soggy white flour dough of ordinary short-cake and more easily digested. A Summer delight and a stomach joy for those who like good things to eat and who have to cut out heavy winter foods.

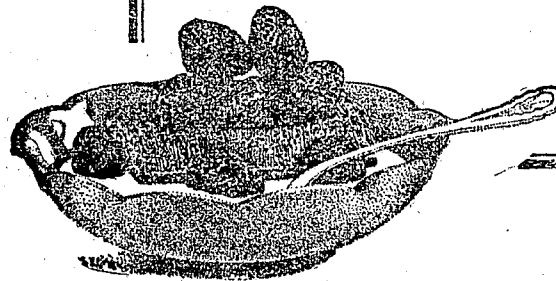

Heat a Shredded Wheat Biscuit in the oven to restore its crispness; then cover with strawberries, raspberries, or other berries and serve with milk or cream, adding sugar to suit the taste. A dish of Shredded Wheat with berries and cream is the bright spot in a dull day. It will keep the stomach sweet and clean and the bowels healthy and active. An ideal Summer food, ready-cooked, ready-to-serve. Your grocer sells it.

Two Shredded Wheat Biscuits with milk or cream and a little fresh fruit will supply all the energy needed for a half day's work or play.

## REFUSES BET ON WEATHER MAN

Assurance Company Considers It "Too Big Gamble" to Insure Against Rain.

CHICAGO, April 24.—"Too big a gamble" is the gist of a cablegram received by the Elgin road race association yesterday from an English assurance corporation which was asked to issue a policy against rain on August 25-26, when the national stock chassis road races of the Chicago motor club will be run.

After studying the weather reports for the last ten years, the Elgin promoters discovered that it had rained on the road race dates eight out of ten years. In view of the heavy expense to be entailed in preparing for the races, the management tried to have the race meet insured against rain.

The company was applied for to a \$25,000 policy, but the proposition was rejected.

## TRAPS HIMSELF IN BURNING HOUSE

Rancher Rushes Into Furnace to Save Pocketbook From Flames.

SANTA ANA, Cal., April 24.—Becoming confused by the thought that his pocketbook containing a considerable sum was in the path of the flames, Edward Ten Eycke, a rancher, entrapped himself in his burning home yesterday by pushing a dresser in front of the door, and was burned to death.

Ten Eycke rose before dawn to cook breakfast for himself and his brother Simeon. He used an oil stove which set fire to the house. With his brother he rushed out into the yard and then, thinking he had left his purse, ran back into the building.

His body was found behind the dresser which was jammed into the doorway. After the fire Simeon found the missing purse in his own pocket.

## MODESTO TO HAVE RAILROAD SERVICE

MODESTO, April 24.—At last from the mix-up of proposals and counter proposals made by the various railroad promoters working in and around Modesto comes the definite promise of actual service. By the middle of next week the Tidewater and Southern Railroad Company will be running cars over the Modesto Empire Railroad to make connection with the Santa Fe. The rolling stock for this line has been ordered, but pending its arrival the company will use a gasoline motor car for the carrying of passengers and express.

## DISCOVERS FRANS NALS' PAINTING

Portrait Found in Obscure Gallery Probably Likeness of Artist Himself.

LEIPZIG, Germany, Saturday, April 24.—A masterpiece by Frans Hals has just been re-discovered, according to Professor Felix Becker, in the course of an investigation by that well known art expert of the picture gallery in the castle of Count Wedel zu Gross, Scherker, a village near Berlin.

It represents the bust of a man of 30, with short black hair, fiercely brushed mustache, close cut beard and sad looking brown eyes, wearing a black coat with a multi-colored ruff around the neck and probably is, says the professor, a portrait of the artist by himself.

"It undoubtedly is," said Professor Becker, "a youthful production of Frans Hals' brush and dates from about 1620." The original signature has disappeared and the artist's monogram has been inserted by someone else on another part of the picture, which was acquired at an auction of the Richter Art gallery in Leipzig a century ago, for two thalers and eight groschen (about \$1.63).

## IEWS NEW-BORN BABE, TAKES POISON AND DIES

TACOMA, Wash., April 24.—Making his will and bidding his new-born babe and wife a fond good-bye, S. N. Peterson, 5321 Grant avenue, walked into the yard at the rear of his home and swallowed the contents of an ounce bottle of carbolic acid. For thirty minutes he walked around the yard after drinking the deadly liquid, its effect neutralized temporarily by the quantity of whisky he had imbibed in celebrating the birth of his child. Finally he dropped to the ground and five minutes after arriving at St. Joseph's hospital expired on the operating table.

Ten Eycke rose before dawn to cook breakfast for himself and his brother Simeon. He used an oil stove which set fire to the house. With his brother he rushed out into the yard and then, thinking he had left his purse, ran back into the building.

His body was found behind the dresser which was jammed into the doorway. After the fire Simeon found the missing purse in his own pocket.

Several months have been taken up in preparing for the conference, which is the first of its kind in the country.

## RAREST OF PAINTINGS FOUND IN COLLECTION

BOSTON, April 24.—Two hitherto unknown portrait paintings executed by the Spanish master Goya, upon the existence of which the whole literature of art is silent, have been discovered in the collection of the Boston museum of fine arts by Valerian von Loga, curator of the Berlin museum. The portraits seem to have been painted in 1769, the period of Goya's prime, says Loga.

## S.S.S. DRIVES OUT BLOOD HUMORS

The intimate relation of the skin to the blood is shown by the fact that impurities or poisons of any character are usually manifested in some form on the outer cuticle. The germs of fever in the blood will cause a flushing and redness of the skin; in like manner the uric acid of Rheumatism will cause inflammation, while malarious poison produces a sallow and chalky hue; and so with other impurities.

The skin is a real barometer to the blood, and the character of impurity infecting the circulation is determined by the effects on the outer tissue. Humors in the blood produce what we term in general, Skin Diseases. These are divided into several classes known as Eczema, Acne, Tetter, Salt Rheum, Psoriasis, Pimples, Rash, etc., and each of these troubles indicate the presence of humors or acids in the circulation. The humors and acids by their irritating nature cause the delicate flesh just beneath the outer skin

to ulcerate and discharge, and soon the skin is disfigured with eruptions which often are torturing to the sufferer because of soreness or intense itching. External treatment cannot cure an internal trouble, and for this reason salves, washes, lotions, etc., can have no curative effect on skin diseases. Such treatment can perhaps soothe, and make the irritated flesh more comfortable, but the real cause must be removed by purifying the blood before skin trouble can be cured.

S. S. S. cures Skin Diseases of every kind by purifying the blood and removing the humors from the circulation. It neutralizes all impure acids, cools the over-heated blood, builds it up to normal strength, multiplies its rich, nutritious corpuscles, and adds to its purity in every way. Then the skin instead of being irritated by acid impurities and humors, is nourished, soothed and softened by pure, rich blood. Book on Skin Diseases and any medical advice free. S. S. S. is for sale at drug stores.

PERSONALS

A merchant would not think a woman  
very wise if she purchased a yard less  
silk for a gown than she needed—even if  
it was a very fine silk. Now in the mer-  
chant wise to purchase a column less  
advertising space than he needs, even if  
it is a very fine advertising space—and  
costly.

## WILL SHOW BLIND SIGHTS OF GOTHAM

Volunteers Called for to Take Unfortunates on Tour of New York.

NEW YORK, April 24.—A call for volunteers to guide three hundred blind men on "sight-seeing" tours around New York city this week has been sent out by the Hospitality Committee of the Blind Workers' Exposition which President Taft will open at the Metropolitan Opera House on Wednesday evening.

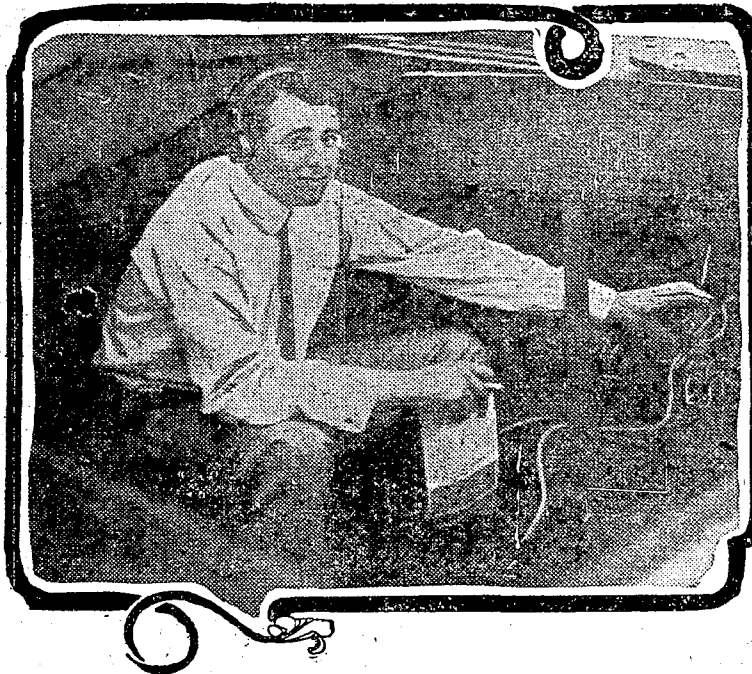

Paid guides have been engaged to accompany the blind workers to and from the hotels and the exposition at the Opera House, but volunteers are wanted to go about with the visitors on tours of the city, explaining to them the sights they are denied seeing.

Through the city's roar and clamor, and through things which appeal to the sense of hearing, smell or touch, it is believed the sightless will get a comprehensive idea as many do who visit the city with their eyes open. Many automobile owners have placed their cars at the disposal of the committee so that the visitors may be taken about with comfort.

Henry Baum, a blind upholsterer, has made a huge chair as a seat of honor for President Taft. The work of the blind in more than forty distinct industries will be shown.

ROOSEVELT TO BE SPEAKER. NEWARK, N. J., April 24.—Theodore Roosevelt will be the principal speaker at the unveiling of a Lincoln statue in Newark on Memorial Day.

## 'GOOD TO THE CORE' IS BILL AT THE BELL THIS WEEK

"C. Q. D." JACK IRWIN, who is appearing at Bell Theater.

Braggar Brothers, who open the bill at the Bell theater this week, really deserve a much better location in the show, but in the case of the new bill at this house this week, it is really hard to pick the favorite. Out of seven extra good acts offered, the brothers Braggar have a line of grotesque comedy in conjunction with athletic features that starts the show on the laughing route. They are two Australian performers who are on their first American tour under the Sullivan & Condon line direction and are making good in a line of entertainment that is very much overworked, all of which goes to show that they are leaders in their division.

"Jack" Irwin, of "C. Q. D." fame, the wireless operator who was the hero of the Wellman airship "America" and also the wireless operator who performed heroic service in bringing relief to the foundered steamship "Republic," is a big card on the bill and is given a hearty reception at every performance. Irwin tells a thrilling story of his experiences on the airship that made the unsuccessful attempt to cross the Atlantic. His tale is replete with points of unusual interest and is illustrated with a series of pictures that add materially to the tale of adventure.

SINGER PLEASES. Miss Eleanor Hatch returns to the coast and is delighting the Bell audience with a repertoire of her charming songs. The progress she has made in her chosen profession has been rapid. Her voice, a sweet but strong soprano, was never in better trim.

Moore and Elliott have a reputation as fun makers and that fact was never more firmly established than in their presentation of the highly amusing little playlet, "A Matrimonial Substitute," that cannot fail to bring the laughs to the most dyed-in-the-wool vaudevillian. It's a story of Jere Sanford, with his whistling, yodeling and story-telling is always good and

Bigelow and Campbell, a pair of lively fellows in synopocated melodies give one a taste of a little dancing, some ragtime songs and extremely clever piano playing. There is a whole lot of singing, dancing and general fun-making in the humorously conceived spectacle that Arthur La Vigne and his company are producing. It is decidedly down to the moment for he takes his players and his audience on a trip from Coney Island to the north pole in a third of an hour and the entire journey is replete with lively vaudeville specialties. His flying cross-naught and his taxicab are two very original pieces of stage mechanisms and he and his company get a good measure of fun out of them to the delight of all those in front. The Perfecto daylight motion pictures that the Bell is showing are the latest and most advanced thing in this line.

## ALLEGED PLOT TO OUST JEFFREY FROM OFFICE

PORTERVILLE, April 24.—Fruit growers of this district are up in arms over the report from the northern portion of the state that an attempt is being made to unseat J. W. Jeffrey from his position as horticultural commissioner of California.

Lottery were sent out from the offices of the Citrus chamber of commerce of Tulare county. In this city, calling upon all the secretaries of commercial bodies in the citrus district to circulate petitions to Governor Johnson urging him to retain Jeffrey.

It is declared here that the opposition to Jeffrey originated with certain nursery stock growers who have incurred the ire of the commissioner and who have reasons to fear an honest enforcement of the laws.

## PLAN DAY AND NIGHT PICNIC

Sons and Daughters of Denmark Will Dance at Grand Canyon Park.

A day and night picnic will be given under the joint direction of Pacific Lodge 39 of the Danish Brotherhood, and DeWane Lodge 17 of the Danish Sisterhood at Grand Canyon Park, East Richmond, on Sunday, April 30. All kinds of sport, including dancing, games, races, a raffle, a balloon ascension and parachute drop; and a musical program by a select orchestra will serve to entertain the guests.

Many excellent prizes have been selected for the winners of the various events.

A large crowd will be present from the various local lodges of Oakland and San Francisco.

## TRAIL FIENDS WHO WRECKED TRAIN

Bold Gang of Criminals Are Blamed for Ditching on New York Central.

LITTLE FALLS, N. Y., April 24.—Railroad officials, detectives and police here are searching today for a bold gang of train wreckers who are held responsible for the wrecking of New York Central train No. 34 here on Saturday night.

Investigation shows that a frog on the eastbound track, over which the train was going 40 miles an hour, was choked with iron wedges. A frog on the westbound track was similarly tampered with but these wedges were removed before further damage was wrought.

The engineer and fireman of the wrecked train are in a hospital at Syracuse, but will probably recover. Both were thrown from the locomotive as it plunged from the track, dragging five loaded express cars with it.

## VEGETABLES TO BUILD TWO STATE CHURCHES

SAN JOSE, April 24.—John Heinlein, a San Jose millionaire, has given to Dr. Yeakum, a Los Angeles settlement worker a tract of fifty acres ten miles south of San Jose, upon which a colony of settlement workers of Los Angeles will be located.

The transfer of the property has not been finally made but Heinlein announces that the land would come into the possession of the settlement workers within a few days.

Upon the land the southerners propose to raise garden truck to get enough money to support a church in this city, as well as to aid the Los Angeles institution.

## Deaf Persons Can Now Hear

Accept Our Offer Today

Deaf or partially deaf people need no longer suffer all the agonies, inconveniences and embarrassments which they have had to endure when they can test for themselves the Electrophone.

Home 30 Days Trial

If you are deaf or hard of hearing, do not fail to send your name and address today and get particulars of our service test offer.

Get an Electrophone and try it for 30 days. If you are not satisfied, return it and we will refund your money. See for yourself how clear and distinct it will make all sounds.

It has marvelous sound magnifying powers. Investigate how easily it overcomes ear noises. Let it take the place of trumpets, ear drums and other similar contrivances which are old fashioned, out of date and often very harmful.

The Electrophone has been really a god-send and a blessing to many thousands of deaf people. Can be worn as easily as a watch, leaving both hands free. Put it to any test you please for a month and prove to your own satisfaction that it can amply meet your every demand. By that time you can decide for yourself whether it has proved itself almost invaluable like it has to so many others. Call or write.

## STEAMER FOUNDERS IN TYPHOON; 15 DROWN

MANILA, P. I., April 24.—The steamer Charles F. Smith, operating between Manila and Cebu, was foundered in a typhoon yesterday. It is estimated that 15 persons were drowned. Fishermen rescued a number of the crew and passengers. One American is missing.

PORTERVILLE RESIDENCE BURNS. PORTERVILLE, April 24.—Started from an unknown cause while all the members of the family were at the theatre, the home of J. B. Gilbert on South C street, was totally destroyed Saturday night. The loss will reach \$2200, with insurance of \$700 on the building and \$600 on the contents.

## How to Gain Flesh

A simple but sure way to increase the weight, it is asserted by several well-known physicians, is to take regularly several months, one or two 3 grain hypodermic tablets after each meal. These little tablets have the distinguished merit of increasing the red and white blood corpuscles, aiding digestion and promoting assimilation and absorption of the elements in the food which go to make blood and solid tissues. They are obtainable in sealed packages from physicians and well stocked apothecary shops.

## LATEST NEWS FROM OUTSIDE TOWNS

## DRUIDS' PARADE TO BE ARTISTIC

Many Alameda County Towns Will Be Represented in Livermore Pageant.

LIVERMORE, April 24.—With the king and the queen already elected by the Druids, the committee on arrangements for the pageant is now making ready for the opening of the festival with all due pomp. The float for the royal personages has been built and will present an appearance which should attract the attention of a large crowd. The body of this float has been made of wood, painted white, while the deck and rigging will be covered with a bed of flowers of every description, from a wild flower to the garden variety of orange blossom.

Other floats from the various Chambers of Commerce and business men's associations have been arriving in the town every day, and already nearly a mile of parade has been arranged for. The last day of the fun-making, April 29th, has been set aside by the committee in charge as the day for the Pleasanton boosters, and they are confident that they will make things hum.

## MOTORCYCLIST HAS NARROW ESCAPE

R. C. Keil Near Death When Automobile Bears Down Upon Him.

MELROSE, April 24.—R. C. Keil, of the firm of Keil and Evans, had a narrow escape from death yesterday afternoon whirling along East Fourteenth street on a motorcycle on his way to the automobile races at the Elmhurst motor-drome. A large touring car driven by H. E. Keil of 607 Seventeenth street turned the corner at Forty-seventh avenue and ran across Keil's path. Keil was upon the automobile before the driver had time to turn aside.

The motorcycle was wrecked and Keil was carried to a nearby drug store where he was treated for a badly hurt left foot.

## TELL BETROTHAL AT DINNER PARTY

The Folger-Haley Engagement Comes as Surprise to Pleasanton.

PLEASANTON, April 24.—An engagement which has excited a great deal of interest in local society was announced at the home of Miss Grace Haley last week, when a dinner party was given with the honored guest as Roy Folger.

The bride-to-be is known in musical circles. Folger is a well-known San Francisco clubman, having a membership in both the Family and the Bohemian clubs. He is the son of Mr. and Mrs. Alvin S. Folger of San Francisco.

If that Japanese war never comes, young R. Hobson's life will be spent in vain.—Indianapolis Star.

## NILES PLANS FOR JULY 4 CARNIVAL

Celebration to Be Notable for Unique Features it Will Have.

NILES, April 24.—A Fourth of July celebration is being planned for Niles by an energetic committee on arrangements, which was recently appointed by the Niles Board of Town Trustees. The program so far outlined consists of literary exercises, oration, a parade, dancing in the town hall, a "horrible" parade, baseball game, Japanese wrestling, fencing, Japanese day fireworks, balloon ascension, devil's dance and a grand ball in the evening.

The committee to be in charge is made up of F. T. Hawes, chairman; F. T. Dusterberry, secretary; J. A. Coney, treasurer; George S. Thompson, S. S. Santos, Dr. Emmerson, M. S. Frances, W. W. Walton, M. H. Lewis, P. C. Hansen, M. S. Almeida and M. S. Simas.

## ARRESTED FOR CRUELLY BEATING LIVERY HORSE

MELROSE, April 24.—Patrolman Anderson of the Melrose police station, famous throughout the annexed district for his single-handed capture of a band of burglars and counterfeiter several months ago, captured Frank Mingham at the corner of East Fourteenth street and Seventy-third avenue yesterday after he had raised great welts across the back of a horse belonging to the City Hall Stables. When Anderson took the man in custody, it is stated by residents along East Fourteenth street, that the horse had been beaten all the way from Oakland, and was nearly ready to drop from exhaustion when he reached Elmhurst.

## LIVERMORE LAD PITCHES NO-HIT-NO-RUN GAME

LIVERMORE, April 24.—By far the fastest game of the season occurred yesterday when the Livermore baseball team defeated the Carroll and Titons of San Francisco by a 2-0 score. The game was fast and exciting at all stages, and it was not until the last man was out that the rooters breathed easily. Elmer Emerson was on the mound for the locals and created a surprise by pitching a no-hit, no-run game. Twenty-five San Francisco batters fanned the air before Emerson's speedy curves.

Rummage Sale for the benefit of Fabiola Hospital, to be held on Wednesday, April 26, and Saturday, April 29, at 9:30 a. m. sharp, 352 Twelfth street, corner Webster.

For soreness of the muscles whether induced by violent exercise or injury, Chamberlain's Liniment is excellent. This liniment is also highly esteemed for the relief it affords in cases of rheumatism. Sold by Osgood, Bros.' drug stores.
